For schedule 1 department, employee compensation as at June posted 53.38%, goods and services posted 45.28% and asset posted 14.24% in terms of budget performance. The percentages with respect to goods and services and assets were largely due to the release of the first quarter common fund and the 2014 third quarter common fund. The schedule 2 department posted 46%, 17.49% and 23.99% for employee compensation, goods and services, and assets respectively. The rather low performance is mainly because the funds to these departments are not released through the treasury and thus not part of our financial records.
