INTRODUCTION

Section 92(3) of the local Government Act (Act 462) envisages the implementation of the composite budget system under which the budgets of the departments of the District Assemblies would be integrated into the budgets of the District Assemblies. The District Composite Budgeting system would achieve the following amongst others:

- Ensure that public funds follow functions and it will give meaning to the transfer of staff from the Civil Service to the Local Government Service;
- Establish an effective integrated budgeting system which supports intended goals, expectation and performance of government;
- > Deepen the uniform approach to planning, budgeting, financial reporting and auditing
- Facilitate harmonized development and introduce fiscal prudence in the management of public funds at the MMDA level.

In 2011, Government directed all Metropolitan Municipal and District Assemblies (MMDAs) to prepare the composite budget which integrates departments under Schedule one of the Local Government Integration of department Act LI 1961. This policy initiative will upscale full implementation of fiscal decentralization and ensure that the utilization of all public resources at the local level takes place in an efficient, effective transparent and accountable manner for improved service delivery.

The Composite Budget of the Builsa North District Assembly for the 2016 Fiscal Year has been prepared from the 2016 Annual Action Plan driven from 2014-2017 DMTDP which is aligned to the Ghana Shared Growth and Development Agenda (2014-2017). The Main thrust of the Budget

is to accelerate the growth of the District Economy so that Builsa North District Assembly can

achieve Middle Income Status under decentralized democratic environment.

BRIEF PROFILE

Establishment

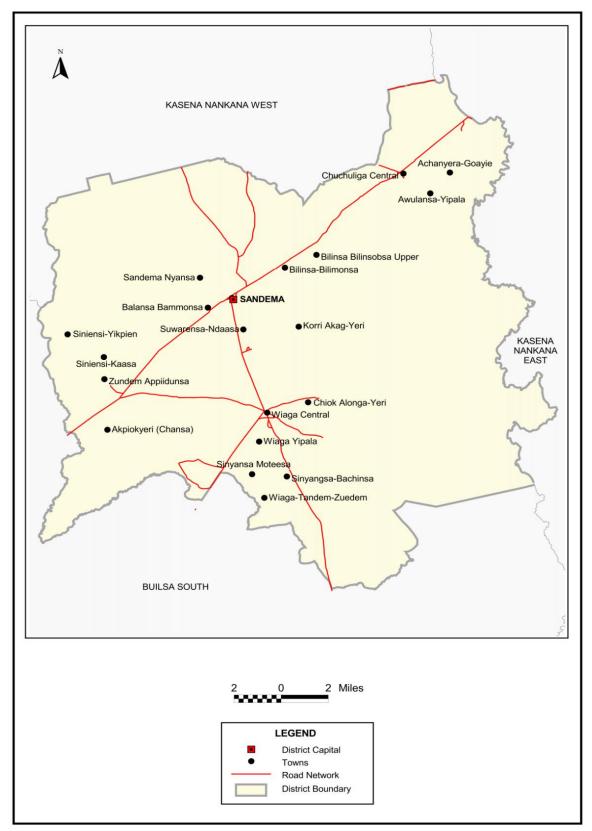

Builsa North District Assembly was established on the 15 March 2012 Act, 1993 (Act 462), with Sandema as its Administrative Capital. The Legislative Instrument (LI) that established it is LI 2148.

BOUNDARIES OF BUILSA NORTH DISTRICT

The Builsa North District is bounded to the North and East by the Kassena Nankana Municipal and West District Assemblies, on the West by the Sissala East District Assembly and on the South by the Builsa South District Assembly.

LAND AREA

The District covers an estimated land area of 1000 km2 which constitutes of about 10% of the total land area of the Upper East Region.

DISTRICT MAP OF BUILSA NORTH

MISSION STATEMENT

In pursuance of its vision, the Builsa North District Assembly is collaborating with the Private Sector and other Stakeholders to improve the quality of life of its people by mobilizing all available resources for the development of socio-economic infrastructure and services as the basis for sustainable development.

VISION

Builsa North District Assembly envisions that:

The Builsa District North District Assembly envisions becoming the lead stakeholder in the sustainable management of the resources of the district to provide household food security, equitable access to quality health care, education, and gainful employment.

THE DISTRICT IS EMBARKING ON THE FOLLOWING

- Vigorous infrastructure development as basis for increased production and Private Sector investment.
- > Revitalize/ Modernize the District's agriculture as its economic base.
- > Enhanced social service delivery with emphasis on Health, Environmental Sanitation,

Water and Education and Control of HIV/AIDS

> Enhancing Good Governance, through Decentralization, Public Safety and Security,

Promoting Civic Responsibility and Enhanced Fiscal Resource Management

DISTRICT ECONOMY

NATURAL RESOURCE **DEVELOPMENT POTENTIALS**:

The Builsa North District is endowed with very rich natural resources. Preliminary exploratory work carried out in the District indicates that Builsa abounds in large quantities of several mineral deposits ranging from Gold, Chromites, Rutile Jasper Talc, Lime, Feldspars, Nepheline Syenite and varied types of clay.

It is known that several of the Soil Associations found in the District have large quantities of good quality clay deposits. In particular, the Pusiga association of soils found in and around Wiaga has large amounts of fine, sandy clays at depths of 30-35cm below the top-soil up to over 120cm of the sub-soil. Clay is also found in Sandema.

Granite constitutes the dominant geological formation in the District and covers over 70% (approx. 153, 300 ha) of the land area occurring mostly in the northern section. Excellent exposures of granitic rocks are therefore found in the northern parts of the District, stretching from Chuchuliga Zone across Sandema to Bachonsa area. These rocks can easily be quarried for road and housing construction. Some of these rocks have fine crevices and can be shaped into ornamental and design blocks commonly used in housing construction. It is important to note that a detailed mineralogical test is required to establish the actual quantity and quality of the various mineral deposits in the District for industrial use.

The District is also blessed with Dams and Dug-outs. These dams serve as sources of drinking water for a wide range of livestock besides being used for dry season vegetable production. Water is also fetched from these facilities for constructional work by contractors and the local people.

OCCUPATION, INDUSTRY, EMPLOYMENT STATUS AND SECTOR OF EMPLOYMENT OF THE ECONOMICALLY ACTIVE POPULATION

OCCUPATION

Agriculture is the main occupation of the people of Builsa Land; with about 67.4% of the people engage in it. Other occupations such as Production/Processing and transport equipment work (13.5%), sales work (8.6%), and services (4.5%) and Professional and technical work (3.8%)

INDUSTRY

In terms of industrial classification, the major economic activities are agriculture including hunting, forestry and fishing (69%); manufacturing including small scale processing activities (10.5%) and wholesale and retail trade (8.6%). Social Services including Public Administration, Education, Health, Community Services and Private Household Services constitute 6.5% of

gainful work. Real estate business (housing development), construction, financial services,

commercial transport, storage and communication, hotel and restaurants are all not well developed in the district and employ a small fraction of those who work.

Employment Status

It is observed that nearly 72.5% of the economically active population in the district is selfemployed workers with no employees, with an additional 18.4% as unpaid family workers, Apprentices and house helps in the private informal sector (both agriculture and non-agric).

Large-scale businesses are few in the district hence the self-employed with employees constitute a very small proportion of those in active work (2.5%).

Employees mostly of the public services and the few relatively large businesses constitute 5.7% of the economically active population It is important to note that of all those in gainful employment in the district on 8.2% (Employees self-employed with employees) could be taxed at source. Such an employment structure poses a challenge for the effective mobilization of tax revenue and the implications for any policy on taxation would need to be carefully considered.

The private sector (private formal + Informal) provides employment to 90.5% of the working population in the District

Employment sector

The private sector (private formal + Informal) provides employment to 90.5% of the working

population in Builsa North District.

Issues

- High incidence of poverty
- Poorly developed business sector (including real estate, transport communication, hotel, restaurant and manufacturing)
- Low tax base and poor revenue mobilization
- Large, but poorly developed private sector that serve as the engine of growth of the district economy.

Strategies

- Support promotion of the informal industrial sector with provision of skills training.
- Support appropriate technology generation and transfer.
- Support development of Farmer Based Organizations (FBO) to facilitate access to inputs, credit and markets.
- Reduce dependence on traditional farming techniques, which is time consuming and result in low productivity.
- Support agro-processing, promoting the development of techniques and equipment, which reduces time burden of women.
- Develop small-scale irrigation schemes.
- Empower women through the promotion of income generation activities supported by the introduction of improved technologies, credit and guaranteed markets.
- Support the improvement of storage facilities to minimize post-harvest losses.

Improve road network to streamline distribution and expose rural people to market incentives

POST & TELECOMMUNICATION INFRASTRUCTURE

Sandema, the District Capital has a Postal Agency that offers postal services to the whole district with limited services though. However, the government through Ministry of Communication is putting up an ultra-modern Post Office. the District is therefore, optimistic that economic activities would be enhanced when this facility is complete.

Again, with the advent of modern telecommunication networks, the district witnessed a dramatic increase in a number of telecommunication services operating within its catchment area.

Presently, there are four (4) Telecommunication operators (MTN, Tigo, Vodafone and Airtel) operating fully in the district. Globacom has started operating in the district but the network is however, not as effective as its competitors. It is estimated that about 80% of the population have access to telecommunication services.

The District however is challenged with the unstable internet service from the only Community Information Center positioned in Sandema. To this end, there is the need for the establishment of such facilities in the major towns of the district so as to make internet services available to the population. There is also the need to link the District to the rest of the country by Microwave-Radio Relay System to enhance communication besides the provision of trunk dialing facilities. The radio links have the advantage of providing tele printer channels for quick transmission and reception of telegraph and telex messages

MARKET INFRASTRUCTURE

Builsa North District has currently one periodic market namely Sandema and several smaller local markets. Sandema market operates every three (3) days whilst localized markets are Wiaga, Chuchuliga, and Siniensi etc, all of which are periodic.

11

BANKING AND CREDIT FACILITIES

The Builsa North District has only one rural bank, Builsa Community Bank and plans are far

advanced to bringing in other commercial Banks to compliment the effort of the existing one.

SMALL-SCALE BUSINESS ENTERPRISE DEVELOPMENT

The types of Small Scale Business Activities in the District are:

- Shea-butter processing and Soap Making
- Groundnut production and Groundnut Oil extraction
- ➤ Textiles
- Construction and Building Materials
- Food storage and Processing
- Light metal Industries and Rural Workshops
- ➤ Tourism

ROAD INFRASTRUCTURE

The principal mode of physical access into and within the District is by roads. There are two main categories of roads in the district giving a total length of 146km and a road density of 0.09%. There is one major artery or primary road from Chuchuliga (Tono Bridge) to Sandema in, which is about 81km (50 miles), about 16km of which has been surfaced with bitumen. The rest of the road network is basically a feeder road linking major settlements to one another.

There is a great deal of potentials in the area of road development yet untapped. About 50kms of the trunk road and 149km of feeder roads have no bitumen surfacing. There are several missing links along these roads such as culverts and bridges. Earlier attempts made to tar some sections of the road network failed e.g. tarring of Sandema – Chuchuliga trunk road was started in 1998, however, 3kms of the road is yet to be tarred

Luckily, the Upper East Region abounds in rocky mountains/outcrops of granite, which can conveniently provide all quarry products needed for road construction in the districts. Location of gravel pits along the routes to be bituminized is another activity that needs attention

TOURISM

The Builsa North District possesses some of the best spots for tourist industry. There are areas that have attractions to foreigners from all parts of the world. The forest reserves of the Sissili central could be developed into a tourist centre.

There is the need for a coordinated district development programme that would provide stimuli towards increased investment in the district by local and foreign businessmen.

Some of the important tourist attraction points are

Sissili Central Forest Reserves with an area of 155.09sq km.

Slave trade history, spots & items used during that period which could serve as museum

pieces. Aspects of the Slave History that are of tourist importance include:

- Akuncham (The Defeat of Babatu and the Weeping Shea Tree)
- The Fiisa Shrine
- The Feok Festival (with its war dancing relics)

POPULATION

The population of the District as indicated by 2010 Population and Housing Census is 56,477 with a growth rate 1.2%, which eventually lead to 59,947.93.

DISTRIBUTION OF POPULATION BY RELIGION AND ETHNIC GROUPS

The dominant mode of worship is the Traditional African Religion, which makes up 46% of the population followed by the Christian Religion, 28%, Moslems 23%, with the rest constituting a small minority of about 3% of the total population. In terms of ethnic composition the District can be said to be a homogeneous one. The Builsa's constitute about 83% of the entire population.

The remaining 17% is made up of minority groups comprising the Kantosi, Mamprusi, Sissala, Nankani and Mossi.

DISTRICT SUB-STRUCTURE.

There are 98 communities clustered into Five (5) Town/ Area Councils in the District. There are

also 31 Electoral Areas in the District.

Currently the District Assembly has total number of Forty Seven (47) Assembly Members

including one Member of Parliament. Out of the (47) members of the General Assembly, Three

(3) are women and the rest are men

EDUCATION

The District currently has 28 Junior High Schools and 71 Primary Schools and 6 private schools

as well as 3 Senior High School and one Vocational Training Institute (Youth Leader School)

HEALTH INFRASTRUCTURE

The District has 1 hospital located in the District Capital, Sandema; 6 health centers, 1No private

clinic, Functional 15 CHPS compounds and two currently under construction as well as 1 GHAG

which are spread throughout the District.

SOCIAL INTERVENTIONS

The Social Interventions Programmes that the Assembly engages in are NYEP, LEAP, and NHIS as well as Disability Fund. The District also embarks on vigorous supply of water to communities through small holder water supply system.

Lastly, Builsa North District is very conscious of gender issues in its developmental activities. This is evident in construction of dormitories in second cycle institutions and various clinics up by the Assembly.

	group meetings		groups were
			organised
	Undertake monitoring of	95%	19 out of 20 VSLAs
	20no.VSLAs		were monitored

CHALLENGES AND CONSTRAINTS

Even though, the District has been able to implement the new budgeting concept with meager resources at its disposal, it has equally faced some challenges with regards to delay in the releases of funds especially to the other departments, notably MOFA, Social Welfare and Community Development.

Aside the above, the main sources of funds, namely DACF, DDF and Donor inflows are not forthcoming as expected. In addition, the Internally Generated Funds (IGF) that could have complemented the effort of Government and Donors are grossly inadequate.

The key focus area of the budget/ Priority Programs and Projects are:

- Central Administration
- ➢ Education
- ➤ Health
- > Agriculture
- > Works
- Social Welfare and Community Development

SECTION II: ASSEMBLY'S DETAIL COMPOSITE BUDGET

By Strategic Objective Summary			Sum lug /	In GH
Objective	In-Flows	Expenditure	Surplus / Deficit	%
000000 Compensation of Employees	0	1,275,877		
020502 5.2 Promote sust'nable tourism to preserve hist'cal & cultural heritage	0	23,000		
020601 6.1 Develop competitive MSMEs and creative arts industry	0	43,000		
030105 1.5. Improve institutional coordination for agriculture development	0	345,994		
030401 4.1 Promote irrigation development	0	511,770		
030601 6.1 Promote livestock & poultry devt. for food security & job creation	0	3,445		
031601 16.1 Enhance capacity to adapt to climate change impacts	0	148,000		
031701 17.1 Enhance cap'ty to m'gate impact of nat. disasters, risk & vuln'ty	0	103,572		
050102 1.2. Create efficient & effect. transport system that meets user needs	0	292,391		
050106 1.6 Develop adequate skilled human resource base	0	83,000		
050301 3.1 Promote rapid devt & deployment of the national ICT infrastructure	0	47,457		
050506 5.6. Ensure efficient utilisation of energy	0	240,000		
050602 6.2 Streamline spatial and land use planning system	0	45,067		_
050702 7.2 Promote resilient urba infrast devt & maint, & basic serv pro'sion	0	573,000		
051302 13.2 Accelerate the provision of adequate, safe and affordable water	0	704,860		
151304 13.4 Promote health and hygiene educ in all water & sanitation programs	0	129,000		
1.1. Increase inclusive and equitable access to edu at all levels	0	1,007,341		
060403 4.3 Improve efficiency in governance & management of the health system	0	1,087,543		
60501 5.1. Ensure reduct'n of new HIV & AIDS/STIs infect'ns, esp amg vul'bles	0	27,000		
61002 10.2. Protect children against violence, abuse and exploitation	0	7,651		
61301 13.1 Enhance inst'nal arrgmts for sectoral collab'n on poverty reduct'n	0	500		
13.2 Develop targ'ed econ & soc. interv'ns for the vul'ble & marg'lized	0	208,540		

Estimated Financing Surplus / Deficit - (All In-Flows) By Strategic Objective Summary										
Objective	In-Flows	Expenditure	Surplus / Deficit	%						
070201 2.1 Ensure effective impl'tion of decentralisation policy & progrms	0	755,851								
070202 2.2 Ensure effective & efficient resource mobilis'n & mgt incl. IGF	6,337,480	25,500		_						
070203 2.3 Int'ge & inst'nalize p'patory district level pl'ning & budgeting	0	41,000		_
