PART A: STRATEGIC OVERVIEW OF CENTRAL TONGU

1. INTRODUCTION

The Section 92 (3) of the Local Government Act (Act 462) envisages the implementation of the Composite Budget System under which the Budgets of the Departments of the District Assemblies would be integrated into the Budgets of the District Assemblies. The District Composite Budget System would achieve the following amongst others:

- ➤ Ensure that public funds follow functions to give meaning to the transfer of staff transferred from the Civil Service to the Local Government Service;
- Establish an effective integrated budgeting system that will support intended goals, expectation and performance of government at the local level;
- > Deepen the uniform approach to planning, budgeting, financial reporting and auditing;
- ➤ Facilitate and harmonized development as well as introduce fiscal prudence in the management of public funds at the MMDA Level.

In 2011, the Government directed all Metropolitan, Municipal and District Assemblies (MMDAs) to prepare the Composite Budget which integrates departments under Schedule one (1) of the Local Government (Departments of District Assemblies) (Commencement) Instrument, 2009, (LI 1961). This policy initiative will upscale full implementation of fiscal decentralization to ensure that the utilization of all public resources at the local level takes place in an efficient, effective, transparent and accountable manner for improved service delivery.

The Composite Budget of Central Tongu District Assembly for the 2017 Fiscal Year has been prepared from the 2017 Annual Action Plan lifted from the District Medium Term Development Plan (DMDTP), which is aligned to the National Medium Term Development Policy Framework (NMTDPF, 2017 – 2019).

i. District Name

The district name is CENTRAL TONGU with its capital at ADIDOME.

ii. Establishment

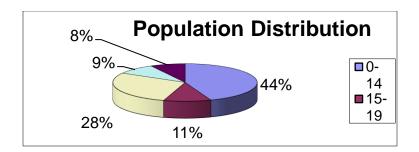

The Central Tongu District was established by Legislative Instrument (LI. 2077), 2012. The established District Capital is Adidome. The District is one of the twenty five (25) administrative authorities in the Volta Region of Ghana.

The District Assembly Structure

The District Assembly, which is a Legislative and Deliberative organ consists of Thirty Nine (39) Members of which Twenty Seven (27) are elected and Twelve (12) Government appointees including one District Chief Executive and one member of Parliament for Central Tongu Constituency who is an ex – officio member of the Assembly. Out of the Thirty Nine (39) Assembly Members, Five (5) are Females and Thirty Four (34) been Males. With regard to the sub – structures, Central Tongu has Eight (8) Sub – structures, which are made up of Three (3) Area Councils.

Population and Structure

Taking cognizance of the population figure and the growth rate, the District population as at 2010 Population and Housing Census is 59,411 with a growth rate of 3.5%. The growth rate is higher than both the Regional and National growth rates of 2.5% and 2.5% respectively. This indicates that there will be a rapid increase in the pressure exerted on the existing services and resources in the District if care is not taken. The district has about three hundred and eight (308) communities according to 2000 Population and Housing Census. The population distribution is shown below on the diagram.

iii. The District Economy

The district structure of the district economy is predominantly agrarian where majority of the population is involved in subsistence agriculture. Therefore, agriculture take about 68.4% of economic activities in the district with commerce, manufacturing and value addition being 15.8%, service taking about 3.4% and the 12.4% rest being transportation.

Agricultural

As leading sector of the District's economy, Agriculture is dominated by small scale unorganized farmers who depend mainly on natural rainfall, which patterns are uneven and uses simple intensive production techniques. As a result, the productivity in the sector is low. Also, there is a challenge of high post – harvest losses due to lack of access roads and use of outdated methods and techniques. The major crops cultivated include; maize, cassava, rice, etc including vegetables such as pepper, tomatoes, etc. With regard to fishing, the lower passes through the district at Mafi – Adidome and Bakpa. This creates opportunity for the citizens to fish.

With regard to livestock, the citizens integrate it to the farming system where more than 30% of the families in the district keep and rear ruminants. The district is one of the largest producers of cattle in the country. In fact, cattle rearing are other major farming activities, where individuals, groups etc keep kraals and ranches.

According to the Ghana Population and Housing Census Report of 2010, a total of 106,319 livestock of different species are reared in the district. These include but not limited to Beehives, cattle, chicken, dove, dock, goat, grass cutter guinea fowl, pig, rabbit, silk worm, snail, turkey etc.

Roads

The district has a total road network of about 250km, which link major communities within the district and neighbouring districts etc. this includes; sogakope – Adidome Road, Adidome – Ho road, Adidome – Volo – Juapong Feeder road. However, the road network need urgent attentions as majority of them are un-tarred, and others remain inaccessible. The district can also be accessible via the Volta River using boats and launch.

Education

In fact, the district has at least sixty seven (67) basic schools, which spread in five (5) educational circuit areas with a total population of about 9,567 pupils with average teacher pupil ratio of 1:35. In addition, there are about 42 Junior High Schools in public sector with a total enrolment of 3,252 pupils with about 150 teachers with an average teacher student ratio of 1: 18 according to 2011/2012 academic year report of GES. Averagely, there are about 3 Senior High Schools in the district.

The challenges with the educational sector include lack of qualified teachers coupled with inadequate educational infrastructures. There are huge infrastructure gaps in the educational sector as many of the schools do not have classroom blocks, desk and other facilities for effective and conducive teaching and learning. Majority of the schools are in remote communities which lack qualified teachers.

Health Care

With regard to health, the story is not different as the district lack modern health facilities. There is only one hospital located at Mafi – Adidome, the district capital. In addition, there are other health facilities dotted across the district providing health care for the people. The district has about one health post, two health centers and six CHPS Compound of Zones with one Maternity and Eye Care Clinic, total about 11 health facilities.

Environment

The environmental issues confronting the district specifically are waste management, effective land use and development, which is a national challenge. The waste management has become serious due the high rate waste generation by the citizenry.

The challenges of waste management are compound with the assembly's inability to acquire land fill site for waste disposals. This is due to unnecessary litigation, inability of the communities to adhere to simple rules and regulations and compliance with bye – laws. The site allocated for final disposal has generated litigation to such degree that who to take compensation has become an issue making it difficult to use.

Tourism

The district is endowed with some tourist and recreational facilities which serve as a centre of attraction to both citizens and foreigners. The main tourist and attractive centre is Avakpedome Ancestral Mountain, which serve as recreational and tourist centre in the district.

The District Center for National Culture is responsible for liaising and monitoring cultural activities in the District that fall under the Central Government. Due to lack of staff and other logistics the center has not been effective.

The main recreational and entertainment activities in the District are:

Traditional drumming (Agbadza, Atsiagbekor, Kenka, Borborbor etc.), swimming in rivers and streams, Boat racing mainly at Bakpa, Fishing; Indoor games; and Life performances by concert and dance bands.

The recreational and entertainment activities are organized mainly by private entrepreneurs for the public and individuals for themselves.

iv. Key Issues and Challenges

The major issue confronting the assembly is inadequate Internally Generated Fund (IGF). The Assembly's capacity to generate adequate funds to finance its activities is seriously challenged. The assembly fines it difficult to generate adequate fund due to lack of personnel, logistics, cooperation from the citizens and traditional leaders etc. This is coupled with inadequate subvention from the Government and support from other development partners. The District Assembly Common Fund (DACF) releases are not reliable and consistent making it difficult for the assembly to finance its activities, projects and programmes to improve development in the district as expected. These situations make it more difficult for the assembly to implement its programme and project effectively and efficiently, creating implementation gap between planning, budgeting and implementation.

Furthermore, the district is also challenged with poor and inadequate educational infrastructure, lack of qualified staff, inadequate teaching and learning materials, lack of accommodation for staff, inadequate means of transportation, inadequate health facilities and personnel, indiscriminate disposal of waste due to lack of proper waste disposal facilities, inadequate road infrastructure, poor farming methods, lack of agro – processing facilities, inadequate investment in farming, lack of irrigation facilities, lack of dams for farming, lack of farm inputs.

District Assembly Broad Objectives in Line with GSGDA II

2. BROAD POLICY OBJECTIVES

- 1. Improve fiscal revenue mobilization and management
- 2. Increase access to extension services and re-orientation of agriculture education
- 3. Develop a comprehensive social development policy framework
- 4. Make social protection more effective in targeting the poor and the vulnerable
- 5. Ensure effective implementation of the decentralization policy and programme
- 6. Ensure effective and efficient resource mobilization, internal revenue generation and resource management

b. Vision

The vision of the Central Tongu District is to relentlessly improve our output and our business efficiencies in order to create a better life for the many people in the district.

c. Mission Statement

The Mission of the Central Tongu District is to improve the quality of life of the inhabitants through effective participation of communities in the mobilization of the needed resources, provision of social services and the creation of an enabling environment for private sector development.

1. CORE FUNCTIONS

The core functions of the District are outlined below:

- ➤ Be responsible for the overall development of the District and ensure the preparation and submission of the development plans and budgets.
- Formulate and execute plan, programmes and strategies for the effective mobilization of the resources necessary for the overall development of District.
- ➤ Promote and support productive activity and social development in the District and remove any obstacles to initiative and development.
- ➤ Initiate programmes for the development of basic infrastructure and provide municipal works and services in the District
- ➤ Be responsible for the development, improvement and management of human settlements and environment in the District
- ➤ In co operation with the appropriate national and local security agencies and be responsible for the maintenance of security and public safety in the District.
- Ensure ready access to courts and public tribunals in the District for the promotion of justice.
- ➤ Initiate, sponsor or carry out such studies as may be necessary for the discharge of any of the functions conferred by Act 462 or any other enactment.

SUMMARY OF KEY ACHIEVEMENTS IN 2016

In 2016, there was remarkable performance with regard to social services sector; the administration is able to complete the construction of New Bakpa Clinic. Construction of CHPS Compound with nurses' quarter and maternity ward at Aformanokope is at completion stage (99% completed). Others include; construction of 1 No CHPS Compound with nurses quarter and maternity ward at Old Bakpa, rehabilitation of existing bungalow at Adidome Hospital, which is also at completion stage and procurement of sanitation equipment on – going.

Education sub – sector also saw tremendous improvement with regard to infrastructure. The following the projects were undertaken in the year under review and are at various stages of completion whiles others are completed. The construction of 1 No 3 Unit Classroom Block with ancillary facilities at Dadoboe is completed, that of Dekpoe and Bakpa Todzie are at painting stages (97% completed). The 1 No 6 Unit classroom block with ancillary facilities is also painted (98% completed). The 1 No 3 Unit Teachers Quarters at Kpoviadzi is also at completion stage (87% completed).

and neglected communities by providing the basic needs to these communities.

74

The purpose of the sub – programme is to protect, support and sensitize the people through awareness creation, community services, social protection programmes and services and creating access to basic needs training. Provision of efficient social services will ensure total growth and development by supporting people and communities to improve their lives.

The services to be delivered includes provision of social protections and social welfare policies such as Livelihood Empowerment Against Poverty (LEAP), Ghana School Feeding Programme (GSFP), People with Disability (PWD) Fund etc and sensitization through celebration of International Women Day, Child Labour Day, World HIV/AIDS Day, support from NGOs, CSOs, CBOs etc, support to people and communities financially, training and in kind.

The organizational units responsible for the implementation of the social welfare and community development sub – programme are the social welfare and community development units.

The sub – programme will be funded by the Internally Generated Fund (IGF) and District Assembly Common Fund (DACF) respectively. Other benevolent organizations, individuals and donors are welcome to support financially and in any other way possible to help the District to achieve this objective for the people of Central Tongu.

The main beneficiaries of the health delivery are the children of all ages, the adults of all ages (citizens) including the aged, children, the neglected, HIV/ AIDS patients, people with disability and many others particularly the poor and vulnerable among others.

Under the health delivery sub – programme, a total staff strength of five (5) will support and carry out various operations towards the implementation of different activities at different stages to achieve the objective of this sub – programme.

The major challenges foreseen that may impede the successful implementation of the health delivery in the Central Tongu District are inadequate funding, delays in the release of funds, inadequate skill personnel, inadequate logistical supply. One of the major problems is lack of support from central government in terms of logistics and resources.
