NARRATIVE STATEMENT OF NKORANZA NORTH DISTRICT ASSEMBLY'S COMPOSITE BUDGET (2016)

Introduction

Section 92 (3) of the local Government Act (Act 462) envisages the implementation of the composite budget system under which the budgets of the departments of the District Assemblies would be integrated into the budgets of the District Assemblies. The District Composite Budgeting system would achieve the following amongst others:

- Ensure that public funds follow functions to give meaning to the transfer of staff transfer from the Civil Service to the Local Government Service;
- Establish an effective integrated budgeting system which supports intended goals, expectation and performance of government at the local level;
- Deepen the uniform approach to planning, budgeting, financial reporting and auditing
- Facilitate harmonized development and introduce fiscal prudence in the management of public funds at the MMDA level.

In 2012 Government directed all Metropolitan Municipal and District Assemblies (MMDAs) to prepare the composite budget which integrates departments under Schedule one of the Local Government Integration of Department Act LI 1961. This policy initiative will upscale full implementation of fiscal decentralization and ensure that the utilization of all public resources at the local level takes place in an efficient, effective, transparent and accountable manner for improved service delivery.

The Composite Budget of the Nkoranza North District Assembly for the 2016 Fiscal Year has been prepared from the 2016 Annual Action Plan lifted from the 2014-2017 DMTDP which is aligned to the Ghana Shared Growth and Development Agenda11 (2014-2017).

Background

Nkoranza North District Assembly was one of the newly created administrative districts in the

Brong Ahafo Region in 2008. The District was carved out of the then Nkoranza District

Assembly in 2008 and it shares boundaries with Kintampo South District to the North, Nkoranza

South Municipal to the South, Atebubu Amantin District to the East and Techiman Municipal to the West.

According to the PHC (2010), the District has an estimated population of 65,895 (2010), with a growth rate of 2.5%. The population structure of the district indicates that 49.5% of the total populations are females whiles 50.5% are males. The land area of the District is about 2,322 sq kilometers.

Mission

Nkoranza North District Assembly exists to ensure total socio-economic development at the local level through the coordination with other agencies in the implementation of government policies.

Vision

The vision of the District is to improve the standard of living of the people through Human Resource Development, Provision of Social infrastructure amenities and creation of enabling environment for private sector participation in the local economic development

The Assembly Structure

The office of the District Chief Executive (DCE) is at the apex of the district administration, followed by the Executive Committee, which serves as the executive, as well as the coordinating body of the Assembly. The Executive Committee is chaired by the DCE who is appointed by the government. The DCE also serves as the political and administrative head of the district.

The next level comprises five sub-committees. The mandatory sub-committees include

- Social Services sub-committee
- Development Planning sub-committee
- Justice & Security sub-committee
- Finance & Administration sub-committee
- Works sub-committee

The sub-committees are to collate and deliberate on issues the executive may direct.

The Assembly may also form any other committees that it may deem necessary.

The District Co-ordinating Director is the secretary to the General House of the Assembly and he is supported by other technical and professional staff.

The District Assembly also works closely with the following Departments and Agencies to ensure development:

- Works Department
- Department of Agriculture
- Department of Social Welfare & Community Development
- Finance Department
- Department of Education, Youth and Sports
- Disaster Prevention and Management
- District Health Department
- Ghana Fire Service

The Numerical Strength of Assembly Member

As established under the Local Government Act 462 of 1993, the Assembly is the highest institution with deliberative, legislative and executive functions in the district and is comprised of 26 elected members and 11 appointees.

Sub-district Structures

The district has four (4) area councils i.e. Yefri, Busunya, Dromankese and Kranka area councils.

Location and Size

The district lies within longitudes $1^{\circ} 10^{\circ}$ and $1^{\circ} 55^{\circ}$ West, and latitudes $7^{\circ} 20^{\circ}$ and $7^{\circ} 55^{\circ}$ North. In terms of land area, the District covers about 2,322 sq kilometers. The District shares boundaries with Kintampo South District to the North, Nkoranza South District to the South, Atebubu Amantin District to the East and Techiman Municipal to the West.

Tourism Industry

The potential tourist sites in the district include, the Fiema-Boabeng Monkey Sanctuary at fiema and slave cave at Bono Manso. The monkey sanctuary is located at the North-eastern part of the District, about 3km away from the Capital Busunya and 17km from Nkoranza Municipal, whiles the slave cave is about 6km from the District capital. It is located on the Techiman-Kintampo main road. The monkey sanctuary was established in1927 and situated in the forest reserved and covers an area of about 4.4 square kilometres. The forest also serves as habitat for different species of butterflies. These attracted a lot of attention in the country and patronized by Ghanaians and the Diaspora due to its unique species like the black and white Colobus Mona monkeys.

The monkey sanctuary has a total of 1,012 spices as at 2013 and is countered in May of every two years with the assistance of Carldrif University of Canada. The monkey sanctuary has 27 trials harboring different monkey families and a monkey cemetery for the burial of dead monkeys by the priest. Who is also buried at the monkey's cemetery.

The monkey sanctuary is great revenue potential thereby increasing the internally generated funds of the district. However the road linking to the monkey sanctuary is not accessible especially during rainy season thereby reducing the number of visitors which subsequently reduce the revenue base of the industry. To improve the tourist arrival, the District Assembly should rehabilitate the road and also provide recreational centers in the tourist site.

Population Size and Growth Rate

The District has a population size of about 74,550 as at 2015 (source: Projection of 2013 PHC) with a growth rate of 2.5%.

Capital Town

The District has **Busunya** as the capital and it's about 20km away from the mother District Capital, Nkoranza.

Structure of the Local Economy

The local economy is structured into three key sectors. The agricultural, commerce/service and industrial sectors all have their fair share of the local economic base. Over the years the agricultural sector has been dominating in terms of employment and contribution to the district micro economy. However, it is gradually making way for the service and industrial sector. The service sector now has to do with telecommunication, taxi and transport services, education and health services and general public administration. The industrial/manufacturing sector is also dominated by small scale artisans like carpenters, auto mechanics, tailors, hair dressers, gari processing and distillers. Table 2 below shows the changing trends in the performance of the key sectors of the economy. While agriculture declined from 89% to 80% between 2008 and 2010, the service sector gained 15% while industry had 5%. This analysis is important for determining the sector of the economy that would be important to the district development process in the future.

| Key Sectors | 2008 | 2010 | % Change |
|---------------------------|------|------|----------|
| Agriculture | 89% | 80% | (11.25%) |
| Service/ Commerce | 9% | 15% | 40.0% |
| Industrial/ Manufacturing | 2% | 5% | 60.0% |

Social Services

The social sector of any economy or locality or district determines the nature of development in that area. This sub-chapter focuses on the basic social services such as education, health and water and sanitation in the District and how they relate to the development prospects of the entire district.

Educational Enrolments

The table below shows the enrolment trend at all levels from KG, Primary, JHS and SHS from 2010/11 to 2012/2013 academic year. It was revealed that more children have been enrolled in the primary level and decreased at the JHS level. The high increased in enrolment at the primary can be attributed to the provision of educational infrastructure and the introduction of the school feeding program. The decreased in transition at primary 6 to JHS can also be attributed to teenage pregnancy, early marriage, truancy and migration of the youth to Libya in search for greener pastures. These have adversely affected the enrolment figures at the SHS by pupils from the district.

Enrolment Figures at all levels

Educational Facilities:

The number of educational facilities in the district is as shown below;

Senior High Schools -2

Junior High Schools - 34

Primary Schools – 67

Availability of Teachers

Availability of teachers is very essential in the educational set-up. The teacher-pupil ratio is an indicator used to assess the adequacy of teachers in relation to pupils. The current teacher-pupil ratio at all levels of education in the District is below average. Table 4 below shows the teacher-pupil ratio in the District comprising trained and untrained teachers, and national service personnel.

Teacher-Pupil Ratio

BECE Performance

The table below shows the trend of BECE performance by candidate during the period under review. The BECE performance has been wonderful as the performance of students keeps increasing from 51% to 85% and decreased by 1.58% in 2012.Meanwhile, in 2013 the district had 98.61% of those who got aggregate 6 and 30 and that made the District ranked first in the country. The achievement can be attributed to the effort's by the education directorate in the delivery of services and the provision of educational infrastructure in the district. However much needs to be done by providing teachers accommodation in the district.

School Feeding Programme

The objectives of the school feeding programme are to enhance school enrolment; encourage attendance; ensure retention; and improve the nutritional and health status of children. The amount of money disbursed is $GH \notin 259,227.00$ in 2007/2008 academic years and $GH \notin 304,647.20$ in 2008/2009. The number of schools which benefited from the programme for the year 2008/2009 was the same (24) as the 2007/2008 academic year. On the other hand, the level of enrolment increased from 5,859 in 2007/2008 to 6,513 in 2008/2009 academic years.

Gender Parity Index

The goal of ensuring parity in basic education has a targeted Gender Parity Index of 1:1 for all levels of basic education by year 2013. This target is in conformation with the third (3rd) goal of the Millennium Development Goal. The Gender Parity Index measures the ratio of boys and girls enrolment rates, the balance of parity being 1.

| GENDER PARITY INDEX | BASELINE(2012) | ACHIEVEMENT(2013) |
|---------------------|----------------|-------------------|
| Pre-school | 1.00 | 0.97 |
| Primary | 0.94 | 0.93 |
| Junior High | 0.79 | 0.70 |

Health Care Delivery

Health care is a social service that is delivered by a multiplicity of actors. They range from orthodox medical delivery systems to traditional systems. The orthodox health delivery system is dominated by health centers, clinics, drug stores and Community Health Planning Systems (CHPS). These systems are either publicly or privately owned but duly accredited to deliver the services they are delivering. On the other hand there are a range of health delivery systems ranging from herbalists, witch doctors to bone doctors also providing some form of medical care to a majority of the people in the district. Information on this category of people is however scanty.

HIV/AIDS

The Ghana Shared Growth and Development Agenda (GSGDA II) recognizes the serious threat posed by HIV/AIDS to the socio–economic development of the country through its potential impact on human capital development, productivity, and social service delivery. There is progress towards the policy objective of curbing and controlling the spread of HIV and AIDS infection, and achieving the Millennium Development Goal of combating HIV/AIDS and Malaria prevalence by 2015.

Prevention and Behavioral Change Communication; Treatment Care and Support are the key strategies for controlling and curbing the HIV and AIDS epidemic in the District. Preventing new HIV infections, particularly among the youth is critical for managing the menace and knowing your status also helps manage the situation.

Health Infrastructure

The district has been zoned into four sub-districts and located in Busunya, Kranka, Yefri and Dromankese with 20 CHPS zones for the entire district. There are four (4) health facilities in the district to provide curative services.

| Item | 2011 | 2012 | 2013 | 2014 |
|---|-------|--------|--------|--------|
| Health Centers | 4 | 4 | 4 | 4 |
| No of CHPS zones demarcated | 11 | 13 | 23 | 26 |

| Population living within functional CHPS zones | 4,826 | 17,607 | 70,547 | 72,170 |
| CHPS compounds reporting through DHIMS | 2 | 13 | 23 | 26 |

Number of Demarcated, functional and CHPS with Compound

The CHPS concept improves yearly in the district, since 2011, twenty six electoral communities were demarcated to be zoned as indicated from the National level. And so far twenty-six C HO,s have been deployed to all demarcated CHPS and now all the twenty six demarcated CHPS are functional which is an achievement for 2014.

Road Network

The district has a total road length of 386.70km of which 114.50km are engineered roads, partially engineered roads constitute 46.10km and 226.10km are non-engineered roads. Out of the 114.50km engineered road, 11.92% are in fairly good shape, 26.61% are in fairly poor shape and 58.47% are in a very bad condition.

Broad Objectives.

The Nkoranza North District Assembly as a way of enhancing the local economic growth and improve the living standards of the people in the district has the following as it's core objectives:

- 1. Develop the Human Resource Base of the district in order to improve efficiency and productivity.
- 2. Enhance good governance and create an environment conducive for the development of the private sector with emphasis on agriculture, tourism and agro-processing.
- Ensure active involvement of the citizenry especially women in decision making and implementation.
- 4. Promote peace and security which is essential for investment and growth of business in the district.

The Ghana Shared Growth and Development Agenda (GSGDA II) guidelines specified the key focus areas for the development of plans and are in line with the Millennium Development goals. The thematic areas for the Ghana Shared Growth and Development Agenda (2014–2017) include the following:

- a. Ensuring and Sustaining Macroeconomic Stability
- b. Enhancing Competitiveness in Ghana Private Sector
- c. Accelerated Agricultural Modernization and Sustainable Natural Resource Management
- d. Oil and Gas Development
- e. Infrastructure and Human Settlement Development
- f. Human Development, Productivity and Employment

g. Transparent and Accountable Governance

Strategies

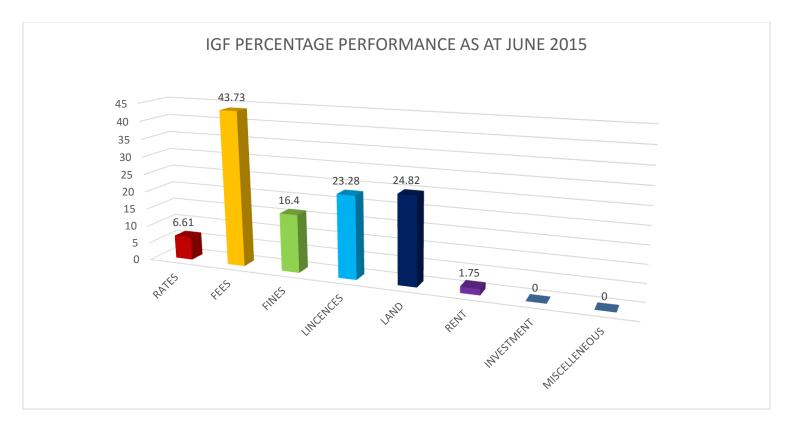

The relevant Ghana Shared Growth Development Agenda (GSGDA11) strategies that will be used to implement the 2016 composite budget are as follows:

- 1. Strengthen the capacity of MMDA's for accountable, effective performance and service delivery.
- 2. Strengthen the existing sub-structures of MMDA's for effective and efficient delivery.
- 3. Strengthen the revenue base of District Assemblies.
- 4. Create an enabling environment for private sector participation and improve efficient and competitiveness of MSME's.
- 5. Improve institutional coordination for agricultural development.
- 6. Provide infrastructural facilities for schools and hospitals at all levels across the country especially deprived areas.
- 7. Increase access to safe, adequate and portable shelter.
- 8. Mainstream gender and disability issues in development planning at all levels.
- 9. Facilitate suitable linkages between urban and rural areas.
- 10. Reinstate labor base method of road construction and maintenance to improve rural roads and maximize employment opportunities.
- 11. Develop plans that will ensure active involvement of the full range of key stakeholders in governance and decision making.

From both the table and bar chart above, it can be deduced that the highest contributor of the assembly's IGF is fees (ie.49, 642.70) representing 43.73% followed by land and lincences etc. This is because items such as farm produce, market dues, exportation of charcoal and cashew which are major sources of revenue for the assembly are captured under fees. However the zero and low percentages for investment, miscellaneous, rent and rates are as a result of breakdown of assembly's grader and low payment of property rate.

It can deduced from both the bar chart and table above that the assembly's revenue as at June, 2015 is MP's common fund, followed by GHARHP and Compensation of employees (i.e. 139.77%, 49.79% and 49.05% respectively). It is expected that the remaining amounts would be received by the end of the year. However the zero and low percentages for DDF, GSOP and Goods and Services are as a result of untimely and inadequate release of funds.

From both the table and pie chart above it can be deduced that almost half of the amount budgeted for as compensation had been received by all departments i.e. (**49.05%**) as compensation of employees as at June, 2015. It is anticipated that, the remaining amount will be received by the close of the year. However the low percentages which are **39.25** and **23.37** for goods and services and assets respectively are as a result of untimely release of fund

REVENUE MOBILIZATION STRATEGIES

- 1. There is the need to embark on educational campaign on the need to pay taxes. A public forum will be organize which will afford the public the opportunity to ask questions bordering them on tax payment and what their taxes are used for.
- 2. The Assembly is determined to conduct a survey to get data on both residential and commercial properties as well as other businesses within the district. This will help in internal revenue collection.
- 3. The Assembly will be engaging the services of the Ghana police to help strengthen the revenue check points in the district to ensure that correct amounts are paid by drivers.
- 4. The Assembly has formed a revenue taskforce which is responsible for the monitoring of revenue activities in the district to avoid revenue leakages
- 5. The Assembly has included sand and stone winning, burial permit and the erection of sign and bill boards in the 2016 fee-fixing resolution which hither to were not revenue items. This will help increase the assembly's revenue in 2016

PRIORITY PROJECTS AND PROGRAMMES FOR 2016 AND CORRESPONDING COST

CHALLENGES/CONSTRAINTS

- 1. Inaccurate data base
- 2. Poor road surface infrastructure
- 3. Limited time frame for training, data capturing and draft budget preparation.
- 4. Inadequate and untimely central government releases.
- 5. Non-existence of some decentralized departments e.g. Town and Country Planning

THE WAY FORWARD/JUSTIFICATIONS

- 6. The Assembly believes that the projects and programmes in the budget will be fully executed if central government releases are adequate and timely.
- 7. There is the need to embark on educational campaign on the need to pay taxes. A public forum will be organize which will afford the public the opportunity to ask questions bordering them on tax payment and what their taxes are used for.
- 8. The Assembly is determined to conduct a survey to get data on both residential and commercial properties as well as other businesses within the district. This will help in internal revenue collection.
