The major crops cultivated in the District include cocoa, oil palm, citrus, rice, maize, plantain, cassava, cocoyam and vegetables. The average monthly income for the agricultural sector in the District is about GHC115.90.

In the Birim North District, the mode of transport is largely by road. The total length of roads is 395.6km, made up of 101 km of trunk roads and 206 km of feeder roads. The need for massive road improvement and reconstruction to increase accessibility cannot therefore be over emphasized since road transportation is the major medium of transportation to serve other sectors like agriculture, industries and social services.
