PART A: STRATEGIC OVERVIEW

1. ESTABLISHMENT OF THE METROPOLITAN ASSEMBLY

Kumasi Metropolitan Assembly is one of the forty (40) districts in Ashanti Region. It was established by Legislative Instrument 2260 of 2018. It is 275.8 km from Accra.

1.1 LOCATION AND SIZE

Kumasi covers a total land area of approximately 78.28km² and it shares boundaries with Afigya-Kwabre District to the north, Atwima Kwanwoma District to the south, Asokore Mampong Municipal and Oforikrom Municipal to the east and Kwadaso Municipal to the west. It also shares boundaries with Atwima Nwabiagya Municipal to the northwest, Suame Municipal to the north east and Asokwa Municipal Assembly to the south east.

1.2 POPULATION

Kumasi had a population of 1,730,249 according to the 2010 Population and Housing Census. However, due to the creation of five (5) Municipalities out of Kumasi Metropolitan Assembly, the city's population is currently estimated to be 1,034,660.00. With the growth rate of 3.9%, it is estimated to increase to 1,075,011.74 in 2020. It has a sex ratio of 91.4.

The population density of the city is 7,865 persons per square kilometer. It is completely urbanized therefore all the population reside in urban localities. However, 500,000 residents from the surrounding Districts work in KMA during daytime.

2. VISION

To become a Safe, smart City and Investment destination for both local and international investors.

3. MISSION STATEMENT

The Kumasi Metropolitan Assembly is committed to improving the quality of life of the people in the metropolis through the provision of essential services and creation of an enabling environment to ensure the total and sustainable development of the city.

4. GOAL

To create a human settlement that attracts, accelerates and sustains private sector development as well as the initiation and implementation of policies and plans for accelerated economic growth, poverty reduction and improved quality of life of the citizenry

5. CORE FUNCTIONS

The Assembly's core functions are:

- Responsible for the overall development of the district;
- Formulate and execute plans, programmes and strategies for the effective mobilisation of the resources necessary for the overall development of the district;
- Promote and support productive activity and social development in the district and remove any obstacles to initiative and development;
- Initiate programmes for the development of basic infrastructure and provide municipal works and services in the district;
- Responsible for the development, improvement and management of human settlements and the environment in the district;
- In co-operation with the appropriate national and local security agencies, be responsible for the maintenance of security and public safety in the district;
- Act to preserve and promote the cultural heritage within the district;
- Performs Deliberative, Legislative and Executive functions.
- Preparation and submission of Development Plans and Budgets.
- Initiate, sponsor or carry out studies that may be necessary for the discharge of any of the duties conferred by LGA Act,2016 (ACT 936) or any other enactment
- In performance of its functions is subject to the general guidance and directions of the President on matters of national policies

6. METROPOLITAN ECONOMY

a. Employment Status

About 63 percent of the population aged 15 years-64 years is economically active while 37 percent are economically inactive. This means there is abundant labour force for Investors. Out of the 63% labour force, 91% are employed while 9% are unemployed.

Out of the 91% employed, the Private sector contributes 91.2% with the Public sector (Government Offices/Businesses) contributing 8.8%. Out of the 91.2% private sector employment, 79.2% fall under the private informal and 19.8% under private formal.

38.4% of the employed is engaged in wholesale and retail trading, 13.6% in manufacturing and repairs, 8% in hospitality and service sector and 6.3% in educational sector. Others are 5.3% in Transport, 5% in Construction and 3% in Agriculture and forestry.

b. Road Network

Kumasi has a total of 875.3 km length of road network linking residents to virtually all parts of the Metropolis. The road network in Kumasi can be categorized into asphalted (13%), Surface dressed (43%), Gravel Surface (35%) and un-engineered surface (9%).

This means that (56%) of the road in the Kumasi Metropolis is relatively in good condition. However, there is the need to improve on the remaining 44%.

c. Education

91% of the population (11 years and older) are literate and 9% are illiterate. Literacy rate is slightly higher for females (50.8%) than males (49.2%).

There are about 337 Pre-Schools, 373 Primary Schools, 252 JHS, 22 SHS, 14 Tertiary Institutions and 2 Technical/Vocational schools in Kumasi Metropolitan Assembly. Most of these institutions are owned by the private sector. The Teacher-Pupil ratio is 1:24 for KG, 1:29 for the primary level and 1:17 for the Junior high school level.

d. Health Care

The city has a number of health facilities manned by both the public and private sector operators. Notable among them are the Komfo Anokye Teaching Hospital (KATH), which is a national autonomous hospital, four (6) quasi Government hospitals, five (5) government hospitals, five (5) CHPS compounds, four (4) CHAG health facilities and thirty-seven (37) maternity homes.

In addition, there are over ninety-one (91) known private health institutions and 20 Homeopathic/Acupuncture Clinics and 20 Private Laboratories in the metropolis. The doctor to patient ratio is 1:41,606 and nurse to patient ratio is 1:7,866

e. Tourism

Tourist Attractions include the following: Manhyia Museum, Rattray Park, Manhyia Palace, Military Museum, Kumasi Zoo, Okomfo Anokye Sod, Cultural Centre, Central Market, Kumasi City Mall and Kejetia.

Again, 50% of the tourist who visit Ghana do visit Kumasi and there is a need to tap on this to improve tourism numbers in the Metropolis. Plans are also under way to ensure the city leverages on the rich culture of the Asante Kingdom to boost tourism by celebrating a Kumasi Week annually to sell Kumasi to the rest of the world.

f. Water and Sanitation

83% of the population use pipe-borne water, 11% depends on well, 2% on boreholes, 2% on River, 1% on spring/rainwater and rivers.

On Waste management, 59% of liquid waste is disposed through gutters, 18% on the compounds of residents, 14% thrown on the street/outside the compound and 9% through the sewerage system. Solid wastes disposal is mainly (83%) done on public disposal site at Oti Landfill site, 11% on other dumpsites, 4% is either collected or burnt and 2% is buried by households.

Though Six (6) Municipalities have been carved out from the Metropolitan Assembly, yet they continue to dump refuse at the Oti landfill site being managed by KMA. The Assembly allocates a significant portion of its budget every year to waste management activities and therefore require external support and funding for waste management. Kumasi is also seeking for investors to turn the waste into energy and production of fertilizers.

g. Environment

Kumasi is located in the Transitional forest zone with lots of trees and green making it the Garden City of West Africa. Unfortunately, over time, most of these trees have been lost and we are doing everything possible to get the old name (Garden City) back with the introduction of programs like Keep the City Clean and Green (KCCG). About 60,000 tree seedlings have been planted in the city.

h. Agriculture

Agriculture in the city are mostly crop farming, aquaculture, horticulture, animal rearing and agro processing. Farming is limited to small scale staple crops production (maize, plantain, cocoyam,

cassava etc.), traditional crops (tomatoes, pepper, garden eggs etc.) and exotic crops (cabbage, carrot, green pepper, lettuce etc.) mostly undertaken at the peri-urban areas.

Some Agro-processing plants for cocoa, fruits and bamboo have been established. The city remains a net importer of agricultural produce.

i. Market Facilities

Kumasi being the center and main transit point for the exchange and transportation of goods and services between the Southern and Northern parts of Ghana and beyond, is blessed with some major market centers for commercial activities. These include: Kumasi Central Market which is the largest single open-air market in Ghana. It serves as a commercial nerve for the entire nation and beyond. The redevelopment of the Kejetia terminal which has its first phase completed (yet to be opened) would serve as a terminal for commercial vehicles that transport commuters to transact business at the Central Market and other business centers in the Central Business District (CBD).

Adum is the main commercial center for wholesale and retail activities in mainly imported goods. It has about 5,000 stores and stalls fully occupied by traders dealing in a wide array of products.

The city also has a number of satellite markets that complement the efforts of the Central Market in servicing clients. Notable satellite markets within the metropolis are AfuaKobi, Asafo, Bantama and Krofrom,

Sokoban Wood Village activities are dominated by small scale wood processing and sale of veneers and semi- finished timber products. Shops and sheds in the wood village are owned by private individuals which provide direct employment to over 2,020 people. Growing commercial activities in the area has attracted financial institutions and other businesses.

j. Energy

The electricity coverage is 100% in the Metropolis. Kumasi has 5 bulk supply points with over 231km of overhead lines and 140.6km underground cables. The monthly electrical energy consumption is averagely 120MW. However, the spate of growth in the Metropolis has far outpaced the rate of electricity generation and supply. This has resulted in overloading of feeders and transformers. Thus, the status of electricity supply from the national grid to various parts of the Metropolis is generally characterized by frequent power cuts.

k. Investment Potentials

i. Location Advantage

- Nodal City
- Centre of commerce
- Trans-West African road network
- Accessible from all parts of the country

ii. Population Advantage

- Kumasi City is the most populous city in Ghana.
- It has a population growth rate of 3.9103%.
- A population density of 10,606 persons per square meter, it is one of densely populated cities in Ghana.

iii. Economic Advantages:

- Tax holidays
- Large market/Effective demand
- Security and Legal Institutions
- Availability of Land

iv. Investment Opportunities

a. Multi-Storey Car Park and Bus Terminal

- More than 10,000 cars enter the CBD daily
- More than 5000 shops at Adum
- More than 500,000 shoppers come to the CBD daily

b. Housing Development

- Airport City Housing Development
- Hotel and Recreational Facility at Royal Golf Club
- Manhyia Housing Redevelopment (Rationale: an old settlement degenerated into slum closer to the Asante King)

c. Waste to Energy

- Waste generation in Kumasi is growing, largely as a result of increasing population and economic growth.
- In 2015/16 it was estimated that total solid waste generation in Kumasi was 756,000 tons, and this is expected to rise.
- Energy recovery is more favourable than disposal to landfill, the Kumasi Metropolitan Assembly, striving for investors in waste to energy to help solve the sanitation crises.
- d. Recreational Facilities
 - Large capacity theatre and conference facility
 - Amakom Children's Park reconstruction
 - Redevelopment of the Kumasi Zoo
 - Rattray Park

7. KEY ACHIEVEMENTS IN 2019
