PART A: STRATEGIC OVERVIEW OF THE AMANSIE WEST DISTRICT ASSEMBLY

1. ESTABLISHMENT OF THE DISTRICT

1.1. Location and Size

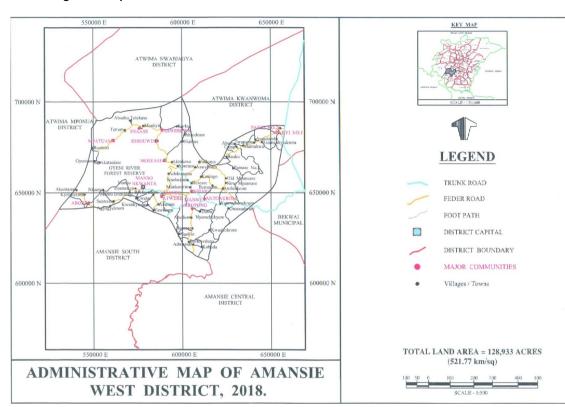

The Amansie West District Assembly is one the forty- three (43) District Assemblies located in the Ashanti Region. It was established by Legislative Instrument (L. I.) 1403 in 1988 as part of Ghana's Decentralization policy to bring governance to the doorsteps of the citizenry. It was further divided into Amansie West and South by Legislative Instrument (L. I.) 2363 in 2016 with the former maintaining its original name.

The District shares common boundaries with six districts namely: Atwima Nwabiagya and Atwima Kwanwoma to the north, Atwima Mponua to the west, Bekwai Municipality to the east, Amansie Central and Amansie South to the South. Specifically, the district is located within latitude 6.05° West: 6.35° North: 1.40° South and 2.05° East. It spans an area of about 522 square Kilometres.

The District has a total of about 70 communities with **Manso Nkwanta** as the District Capital. The District Capital, Manso Nkwanta is about 65 Km from Kumasi. Apart from Manso Nkwanta, other dominant settlements include Abore, Ahwerewa, Antoakrom, Esaase, Essuowin, Mpatuam, Moseaso, Nsiana, Manso Atwere, Yawkrom, Pakyi No. 1 and 2.

The surrounding districts with respect to this location provide opportunity for marketing goods and services from the district. The location of the district makes it the centre of attraction to both local and international tourists. This has a great potential for promoting hospitality industries such as hotels, restaurants and crafts products. With its vast land area, there is access to agricultural land for promotion of citronella, cocoa, oranges and oil palm plantations to feed the local agro based industries and beyond.

Figure 1: Map of Amansie West District

1.2. POPULATION STRUCTURE

The District has a Projected population of Ninety-One thousand, nine hundred and Five (91,905) persons. The male and female populations stand at **45,033** and **46,872** respectively. The population of the District is more rural in nature with Eighty-Four thousand and Ninety-three (84,093) persons representing 91.5 percent while the urban area account for only 8.5 percent representing Seven thousand, Eight hundred and Twelve persons **(7,812)**. The District has a population density of 164.67p/km². This situation even though not alarming, effort is required to keep it in check to avoid pressure on both natural resources and other physical infrastructure.

DISTRICT ECONOMY

Agriculture

The District's economy is regarded as agrarian, largely due to the sector's contribution to Gross Domestic Product (GDP) generally, labour absorption and to foreign exchange earnings. The contribution of agriculture, forestry and fishing accounted for 59.2 percent of the district economy. The sector however, is gradually losing value to the mining and quarrying sectors as most of the able body young men and women have taken to this sector as source of livelihood leaving children and the elderly in the agricultural sector.

As indicated below by the district agriculture development unit of the assembly, major food crops grown by farmers include plantain, cassava, cocoyam and maize. Cocoa is the main cash crop cultivated in the district and the raked third in the nation. The table below indicates the production levels in food crops.

Crop Production (2017 - 2019) Metric Tones

Industry

A few agro-industrial activities are done in the district. They include cassava processing (Gari making), oil extraction and akpeteshie distilling. The others are wood processing into lumber, furniture production and wood carving, a few of the people are into jewellery production metal fabricators and clothes production. With the exception of few large mining companies, the mining sector in the District is dominated by illegal miners popularly called "galamseyers".

Education

The management of Education in the District like any other District in Ghana is the responsibility of the district office of the Ghana Education Service. The District Education Service operates in all the communities in the District through the eight circuits. The table below indicates the number of educational facilities.

Health

Health is defined as the complete state of the social and mental wellbeing and not merely the absence of disease or infirmity. It is often said that a healthy population makes a healthy nation. It is therefore imperative to give health care all the necessary attention and recognition it deserves in the District.

Health delivery in the district has been zoned into six sub-districts namely: Agroyesum, Antoakrom, Eswuowin, Keniago, and Manso Nkwanta.

WATER AND SANITATION

Water

Access to potable drinking water in the district has improved over the years in the Amansie West district. The main sources of water in the district include hand dug wells mostly found in the smaller communities, boreholes provided by donor agencies and the government and small town water projects found in the larger

towns in the district. Small town water systems in the district can be found in Manso Nkwanta, Manso Abore, Pakyi No. 2 and Mpatuam. These water systems are managed by water boards. The water facilities in the district are shown in the table below.

Access to potable water supply

| Year | Type of water facility | No. of facilities | No. of communities |
|------|------------------------|-------------------|--------------------|
| 2018 | Boreholes | 189 | 66 |

Sanitation

Environmental sanitation in the Amansie West district is very poor. There have been inadequate facilities to meet the solid and liquid waste disposal and management of the population in the district. There are only five communities in the district with KVIPs. These are Manso Nkwanta the district capital, Abore, Manso Atwere, Moseaso and Ahwerewa. However, most of these facilities are dilapidated due to pressure and over utilization over a long period of time.

Over 90% of the people in the district use Pit latrines. The District Assembly under the Water and Sanitation Programme assisted 950 individuals to acquire their own household toilets between 2006 and 2013. This is to encourage individuals to own their own toilets which have been found to be more useful than the public toilets. Five (5) schools have been assisted by CWSA to own KVIP Latrines. The district however, still needs more latrines to improve upon the sanitation situation.
