Major settlements in the District are Asiwa, Anyanso, Freso, Abosamso, Nsuaem, Tebeso I & II, Anyinase and Nsuta.

Source: August, 2020 trial balance – Bosome Freho District Assembly

The table above illustrates the trend of revenue received from all the funding sources on behalf of the Bosome Freho District Assembly over a 3-year period (2018-2020). The Assembly budgeted for **GH¢9,014,981.22**, **GH¢5,940,897.51** and **GH¢7,580,444.91** for 2018, 2019 and 2020 financial years respectively. Total annual receipts amounted to **GH¢4,082,841.38**, **GH¢5,360,489.31** and **GH¢3,183,167.62** for 2018, 2019 and 2020 (August) respectively.

The 3-year trend analysis shows a steady increases in all the revenue sources except for Goods and Services Transfers whose budget fell short by over 80% in 2019. However, School Feeding recorded nothing in 2018, 2019 and 2020 due to government policy to centralise disbursement at the Gender and Social Protection Ministry in Accra.

DDF receipts over the 3-year period also recoded an increase with an over 100% performance in 2019. This was chiefly attributed to arrears from the previous year.

The Bosome Freho Assembly, just like other Assemblies in the country depends heavily on Transfers from Central Government to provide public goods and services for its people, hence the **41.99%** (**GH¢3,183,167.62**) received so far out of the total budgeted amount (**GH¢7,580,444.91**) from Central Government has indeed impacted negatively on the Assembly's ability to deliver the much needed goods and services for its people.

From table 6, as at 31st August, 2020, the Assembly had mobilized internally, an amount of **One Hundred and Fifty-Four Thousand, Eight Hundred and Eighty-Two Ghana Cedis, Fifty-Six Ghana Pesewas (GH¢154,882.56)** representing **55.12%** of total budgeted internally generated revenue (**GH¢281,000.00**).

Growth in local revenue generation over the 3-year period with respect to the first 9 months of 2020 has shown a generally unsatisfactory performance except for Rates which recorded an above budget performance of 110.61%. The result could be attributed to extensive mobilization campaigns embarked upon by the Assembly's Task Force.

The Assembly fell short of its overall target by **GH¢55,867.44** representing **26.51%** going by the 9 months calculation of total IGF budgeted revenue of **GH¢210,750.00**.

10.0 REVENUE MOBILIZATION STRATEGIES FOR KEY REVENUE SOURCES IN 2020

The key revenue sources of the Assembly are Property rates, fees from farm produce and stool lands etc. To improve upon the 2020 revenue mobilization performance, the Assembly intends to continue with effective implementation of its revenue mobilization strategies outlined in 2020. The Assembly will continue to actively involve the sub-district structures i.e. the Area Councils and Unit Committees to continue to assist in the collection of Revenue.

Tax education would be intensified in the district to help create awareness. The Assembly would effectively supervise and monitor the operations of Commission Collectors. The revenue mobilization task force of the Assembly would be resourced to work to beef up revenue supervision and monitoring effort.

The Assembly has the intensions of outsourcing some portions of its revenue items to private revenue mobilization institutions to help generate revenue for the Assembly.

It is expected that statutory funds such as the DACF, DDF, GOG transfers and other Donor supports would be released in time to enable the Assembly undertake its planned projects.

Other approaches to be used in improving revenue collections are:

- Continuous update of the district revenue data
- Organize revenue mobilization interactive meetings with revenue collectors
- Provide appropriate logistics for revenue collectors
- Motivate hard working collectors and supervisors

It is expected that with improved IGF and timely release of external funds, the Assembly will in 2020 complete all ongoing projects and programs and also start substantially with new ones in major sectors such as Agric, Education and Health.

The Department of Agriculture is made up of sixteen (16) technical staff; all on government payroll.

The major challenges are:

Unpredictable climate; these include drought or prolong period without rain which leads to poor harvest, excessive rainfall which reduces yield and excessive sunshine which leads to increase in temperature;

Agricultural inputs; inputs like fertilizer are very expensive, some inputs are very substandard and do not meet desired results; Pest and Disease, Reduces farmer's income, quality of farm produce and increase the cost of production and it also discourages farmers from further production;

Poor Marketing System; there are fluctuations in prices and activities of middlemen who try to remove all the gains of producers, poor pricing, poor marketing channels for farm produce and lack of storage facilities for perishable commodities;

Environmental degradation; this included the activities of legal/ illegal mining bodies which has reduced the cultivable land size and causing land erosion;

Problem of finance or poor financing; farmers cannot secure the necessary collateral for loans, and cannot pay the high interest rates on loans either from financial institutions or money lenders;

Problem of processing/storage facilities; storage facilities like silo, cribs, barns are inadequate thus leading to the quality of farm products being reduced, glut during harvests and food deficit outside harvest periods. Processing facilities are very expensive to procure and maintain and; insufficient and delay releases of funds to the department.
