- Perform any other functions provided for under any other legislation.
- Take the steps and measures that are necessary and expedient to:
 - . Execute approved development plans and budgets for the district
 - ii. Guide, encourage and support sub-district local government bodies, public agencies and local communities to discharge their roles in the execution of approved development plans
 - iii. Initiate and encourage joint participation with any other persons or bodies to execute approved development plans
 - iv. Promote or encourage other persons or bodies to undertake projects under approved development plans
 - v. Monitor the execution of projects under approved development plans and assess and evaluate their impact on the people's development, the Local, District and National economy
- Coordinate, integrate and harmonize the execution of programmes and projects under approved development plans for the district, any and other development programmes promoted or carried out by Ministries, departments, public corporations and any other statutory bodies and non-governmental organizations in the district.
- Guide and direct the President on matters of national policy, and shall act in cooperation with the appropriate public corporation, statutory body or nongovernmental organizations.

District Economy

Agriculture

The District is mainly an agrarian economy with majority of the population engaged in crop, livestock production and other agriculture related activities which are predominantly done on subsistence level. The sector including forestry (62.9%) constitute majority of the employed population. There are few commercial farms with specialties in vegetable/ crop

production as well as cattle rearing: HAK, HGL, Sakoda, and Alu Farms among others. There is high potential for investors in commercial agriculture.

Food Crop Production

Crop production forms the base of the District's agriculture production. The major food crops cultivated are maize, pepper, plantain, cassava, cocoyam, legumes, water melon and dotted tree crops such as mango, orange, cashew, pawpaw, coconut, oil palm. 90% of farmers in the District practice mixed cropping while 10% practice mono- cropping.

Livestock Sector

The livestock sub sector is predominant in the District especially the production of cattle, sheep, and goats. This necessitated the establishment of the Adaklu-Waya Animal Market. Farmers in the District keep livestock and poultry in their backyard as a supplementary source of income

Road Network

Although the communities within the District are well linked and connected with feeder roads most of these roads are not engineered. The total road network in the District is about 123.1km. This is categorized into Highways, consisting of the Ho-Adidome Highway, and Feeder Roads including engineered, partially engineered and wholly not engineered roads. Roads in the District are generally poor.

Energy

The Assembly over the years has supported the extension of electricity to most communities in the District the Rural Electrification Project. Within the last planning period, some of the communities that benefitted from this project included: Seva, Helekpe Kpetoe, Amedzievie, Gavorkope, Tevikpo, Dorkpo, Kporduave, Ativorkope, Alawukope, Hinakorpe. It is estimated that over 95% of communities in the District have access to electricity. The major challenge facing the energy sector is however the frequent power

outages due to bad weather and bush fires that destroy electric poles. Also, most streets in the district do not have street lights and this has implications for security in the district. There is the need therefore to make provision for the supply and maintenance of street lights in communities.

Health

Health Service Delivery in the District is administered by the District Health Directorate. Christian Health Association of Ghana (CHAG) operates clinics at Sofa and Waya.

The District has no hospital at the moment and as such health services are delivered at Health Centres and CHPS Compounds. Severe cases are referred to Central Tongu District Hospital, Ho Municipal and the Teaching Hospital at Ho.

The District has acquired land at Waya in preparedness to benefit from one of the proposed 88 Hospitals earmarked by GOG for Districts without a Hospital.

The District is divided into five sub-districts namely: Ahunda, Helekpe, Sofa, Wumenu and Waya Sub-Districts.

The table below shows the categories and number of health facilities in the District:

| Ownership | Type/Number of Facility Hospital | Health Center | Clinic | Maternity Home | CHPS Compound | Overall Total |

Education

Education Delivery in Adaklu District is primarily administered by the District Education Directorate under the mandate of the Ghana Education Service.

Its delivery is financed by the Central and Local Government, supported by Faith Based Organizations, Private and Non-Governmental and Charity Organizations. These partners have helped to improve Access and Quality through the provision of Classroom Infrastructure, Recreational Facilities, Library Books, Computers, Furniture, WASH facilities.

There are both Private and Public Educational Institutions at various levels within the district as presented in the table below:

| SN | CATEGORY OF SCHOOL | PRIVATE | PUBLIC | TOTAL |

| 1 | KG only | - | 1 | 1 |

For effective monitoring and supervision in the education sector, the district is divided into Eight (8) Circuits namely: Waya, Ablornu, Torda, Abuadi, Kodzobi, Ahunda, Wumenu and Kpetsu.

There exist also the Non Formal Education Unit in the District. Patronage of Non formal Education in the District is however relatively low. The Unit is woefully under resourced. The number of learners districtwide benefitting under the sector are numerated below:

Non -Formal Education Learners

| 2018 | | | 2019 | | | 2020 | | |
|------|--------|-------|------|--------|-------|------|--------|-------|
| Male | Female | Total | Male | Female | Total | Male | Female | Total |
| 10 | 88 | 98 | 17 | 113 | 130 | 18 | 145 | 163 |

Market Centres

The presence of a large number of livestock in the District necessitated the establishment of an Animal Market at Waya. The Assembly constructed a slaughter house at this Market and further expansion and provision of other infrastructure are currently ongoing including pavement and construction of market stores and sheds. The long term plan is to develop the Market into a major multipurpose one. There are other smaller markets in communities such as Ahunda, Helekpe and Torda but these markets lack basic facilities such as sheds etc.

Water and Sanitation

Potable water coverage in the District is very low. About 57% of the population have access to portable water. This is far below the regional and national average of 59% and 58% in comparative term.

During the implementation of the 2018-2021 MTDP, the Assembly has constructed over 25 mechanized boreholes in various communities such as Kpogadzi, Torda, Aziedukope, Ahornkope, Akatsixoe etc. In all, there are 61 boreholes in the District. Out of the total number of boreholes in the District, 33 of the boreholes are functional whiles the remaining 28 boreholes are broken down.

The District is one of the five benefitting from the Ongoing 5 District Community Water Improvement Project funded by GoG/ Spanish Government. Communities such as Waya, Adaklu Alavanyo, Helekpe, Goefe, Tsrefe, Awanyaviofe, Sikama, Abuadi, Tokor, Kordiabe, Agblefe were expected to benefit from it. The third phase of the project has commenced which the water would be sourced from Adidome, and channelled through 132 kilometres of distribution lines to beneficiary communities.

The project will include the construction of booster stations, storage facilities, elevated concrete water storage tanks, health and safety education as well as environmental

safeguards. This project when completed is expected to bring an end to the perennial water challenge facing residents of the District.

With increasing population and economic activities, waste management is becoming a major issue in the District. Sanitation Coverage in the District currently stands at 44%.

The Adaklu District has no final disposal sites for liquid waste but has one for solid waste. The land fill site is under the management of Waste Landfills Company Limited. Zoomlion Ghana Limited is responsible for general waste management in the District. Both companies are under the supervision of the Environmental Health and Sanitation Unit of the Assembly. The key issues facing the sector are inadequate refuse skips in communities, crude waste disposal methods, high incidence of open defecation, inadequate household latrines, poor enforcement of sanitation bye laws, inadequate sanitation officers in communities etc. The control stray animals in communities have been a challenge due to lack of animal ponds in the District.

Tourism

The tourism industry represents a huge economic factor and its social impacts are obvious. The tourism industry is a major employer of women and offers various opportunities for independent income generating activities.

The main attractions in the District include the famous Adaklu Mountain, Kalakpa Forest Reserve, and Cemetery for German Allied Missionaries etc.

Environment

The District's natural resources include water bodies, sand, stone and clay deposits, grasslands, timber products, highlands, forests/ plantation reserves etc. These resources serve as sources of livelihood and employment for majority of inhabitants. However, human activities have been contributing to the depletion of these resources. These activities include deforestation, sand winning, overgrazing, harmful agricultural practices, and bush burning. The Assembly has made efforts over the years to enforce its by-laws

in relation to these activities to avoid over exploitation of these resources. The Assembly would also be expected to promote sustainable use of such resources and also promote the application of modern technologies in the exploitation of the resources.

Air, Water and Land Pollution

Environmental pollution in the District comes in various forms, such as: air, water, soil pollution, etc.

The following are some forms of pollutions in the District:

- Improper application of agro-chemicals
- · Road and stone quarry dust
- Open Defecation
- Charcoal/ bush burning and burning of other household items and refuse
- Improper solid and liquid waste disposal systems
- Use of harmful chemicals for fishing in water bodies, etc.

Key Issues/Challenges

- Inadequate office space for staff.
- Unavailability of critical offices such as NBSSI (BAC) NHIS, Birth and Death Registry etc.
- Ineffective Sub-District structures
- Low levels of Internally Generated Revenue
- Inadequate extension services delivery
- Poor prioritization of Spatial Planning (Structure and Local Plans)
- Poor road networks
- · Lack of official accommodation for Staff

Key Achievements in 2021

- 1. Constructed fence wall at Waya Police Headquarters and Police canteen
- 2. Constructed fence wall at Anfoe CHPS Compound
- Completed 1No. 10-unit lockable stores and 1No. 14-unit market shed at Animal Market
- 4. Constructed Health Centre with ancillary facilities at Ablornu
- 5. Constructed 2No. 4-unit nurses' quarters at Kordiabe and Hlihave
- 6. Expanded Kordiabe Health Centre
- 7. Documented Assembly's 50.81 acres' land and 51 acres for District Hospital Land
- 8. Supplied medical equipment to Anfoe Health Centre
- 9. Constructed District Police Canteen at Waya
