PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

ESTABLISHMENT OF THE DISTRICT

Mampong Municipality is one of the forty-three (43) Administrative Districts in the Ashanti Region. It attained the status of a Municipality in November 2007 under the Legislative Instrument (L.I.) 1908. Mampong is the Municipal capital with a distance of 52km from Kumasi, the capital city of the region. The Municipal capital is also the seat of the second most important stool (the silver stool) in the Ashanti Kingdom. It is located on longitudes 0.05 degrees and 1.30 degrees west and latitudes 6.55 degrees and 7.30 degrees north, covering a total land area of 449km². The Municipality has 79 settlements with about 55% being rural and 45% forming the urban enclave. The rural areas are mostly found in the northern part of the Municipality where communities with less than fifty (50) people are dispersed.

POPULATION STRUCTURE

Population density is defined as the number of people per square kilometer (km²) of unit area of land, thus, the population density in the Municipality is 27.0 persons per square kilometer (27 persons/km²), which is less than the regional population density of 45.9 persons per square kilometer and the national figure of 49.3 persons per square kilometer. This low density of the Municipal implies that there is low concentration of people in the Municipal and coupled with scattered nature of settlements make it extremely difficult to provide basic services to the people of the district. It also makes monitoring and evaluation of programs and projects difficult to undertake. The Municipal has a population size of 116,632 as per the 2021 Population and Housing Census. Out of that, 56,965 are males whiles 59,667 are females representing 48.8% and 51.2% respectively (Source: Ghana Statistical Service). The population has been increasing over the years with a growth rate of 2.2% and as a result the population of 2023 is projected at 119,197.

The population depicts a broad base population pyramid that tapers off with a smaller number of elderly persons. Out of the total working population of 35,001, 51% representing 17,867 are found in the agriculture sector with 58.1% being male and female representing 41.9%. The 17% of the working population who are in agriculture are within the age group of 35 to 60 and more years.

The implication on food security in the Municipality cannot be underestimated. Agriculture policy aimed at attracting the young ones into the sector should be promoted. As a result of this the government's policy of embarking on planting for food and jobs has yielded results. Other policies should be rolled - out in the Municipality to cater for the increasing population.

VISION

Mampong Municipal Assembly aspires to become a highly professional socio-economic service provider that creates an opportunity for Human Resource Development in partnership with other administrative authorities in the Municipality.

MISSION

Mampong Municipal Assembly exists to raise the living standard of the people through the formulation and implementation of policies, programs, and activities in support of Agriculture, Education, infrastructure, Health, and other socio-economic activities by skilled and highly motivated staff in partnership with the private sector, Traditional Authorities, NGOs and CBOs and the various communities.

GOALS

- Economic Development; Build a Prosperous Society
- Social Development; Create opportunities for all
- Environment, Infrastructure, and Human Settlements; Safeguard the natural environment and ensure a resilient built environment
- Governance, Corruption, and Public Accountability; Maintain a stable, united, and safe society
- Emergency Planning and Response (Including Covid-19 Recovery Plan); Mainstream emergency planning and preparedness into Ghana's development planning agenda at all levels to respond to potential internal and external threats (including COVID-19)
- Implementation, Coordination, Monitoring, and Evaluation; Improve delivery of development outcomes at all levels

CORE FUNCTIONS

- Facilitate the effective functioning of the Local Government Administration in the Municipality
- Ensure efficiency and effectiveness in the use of resources of the Municipality.
- Monitor, coordinate, and harmonize the implementation of development plans and activities in the Municipality.
- Facilitate the provision of basic social, economic, environmental infrastructure and services in the Municipality
- Facilitate community-based and private sector development in the Municipality.

DISTRICT ECONOMY

Agriculture

Agriculture is the main economic activity within the Municipality and employs about 67.30% of the entire labour force. The Municipality has vast arable land which inhabitants cultivate for various kinds of food and cash crops. The Service Sector is the second economic activity and absorbs about 12.10% of the local economy, while Commerce absorbs about 8.50%. Production and Manufacturing, however, absorb about 8.9%, while 3.2% are absorbed by other incomegenerating activities. Small-Scale Industries within the Mampong Municipal area can be categorized into 5 groups. These are Agro-based Industries; Forest based Industries, Textiles, Metal Works, and Services. District Chamber of Agriculture, Commerce, and Technology (D-CACT), Planting for Food and Jobs, and 1 District 1 Factory.

District Chamber of Agriculture, Commerce, and Technology (D-CACT)

The D-CACT is an office that has been set by the current government to enhance the government's drive for industrial revolution through the various Districts, with a mandate to promote agribusiness to facilitate an interface between the private and public sector at the district level. It also coordinates the government's initiative - planting for food and jobs and one district-one factory. Planting for food and jobs is already ongoing and a one-district-one factory is about to commence.

Planting for Food and Jobs

Under this programme, the Assembly has selected three (3) cash crops, namely Cashew, Oil palm, and Cocoa.

Road Network

Mampong Municipal can boost of very good roads within the central business district with asphaltic overlay, however, a lot need to be done about roads in areas like, Abrukutuaso, Tunsuom, Adweeho, Bosofour, Tatafroso and Adiembra Low-Cost. Although Abrukutuaso-worakese has been awarded in contract since 2019, the work has been terminated due to non-performance on the part of the contractor.

Road Safety Situations in the Municipality

There is no walkway along the major roads in the municipality to enhance safety for the populace, traders trading so close to some major roads and activities of Pragya are safety issues within the municipality. These areas have been intensified as accident prone areas, they are Pentecost church junction, Newtown junction, Mampong Methodist church junction and simple store junction. Some selected roads in the municipality are been upgraded and classified under cocoa roads. These roads are: Adidwan-Atonsuoagya road (2.90km); Bosomkyekye-Bunuso road (7.70km); Nkwanta-Brengo road (7.70km) and Woraso-Sekruwa road (3.30km)

Energy

Energy is the backbone of every economic activity in the world. Mampong Municipal can boast of over 70% electricity coverage and a recently constructed ECG sub-station to regulate power. The municipality has 8 petrol refilling stations and 4 gas refilling stations. The assembly is in talks with an energy company called Renergec Company to install a plant to convert waste into energy. This will ensure among others clean environment, a reduction in the cost of waste management to the assembly and to convert solid and liquid waste into energy which would minimize the challenges of energy production in the Municipality as well as create employment.

Health

Health is a vital indicator of human development across local and regional boundaries. Thus, health and health service development has a direct effect on the social development of the municipality. In this regard, health development is one of the key functions of the municipal assembly. The tables below detail the various health institution in the municipality and the staff strength:

| NAME OF FACILITY | NO. OF FACILITY |

The year 2019 witnessed a reduction in stillbirth rate per 1,000 deliveries from 15 to 10, maternal mortality has also reduced from 66.9% per 100,000 live births to 65.1% by end of the year 2019. (Source: 2019 Annual Health Report).

Education

The municipal area has ninety-six (96) Primary Schools, sixty-two (62) Junior Secondary Schools, six (6) Senior Secondary Schools including a vocational school. There are also two (2) College of Education, one (1) Nursing and Midwifery Training College and one (1) University. Over 80% of the post-Junior High School institutions are located within the municipality. The numerous educational facilities in the municipal prove that the standard of education is very encouraging. There are a total of 41,273 students covering Kindergarten to Senior High School. There are however about 30% of pupils of school-going age who are out of school.

Market Centres

The Mampong Municipality has both weekly and daily markets. The weekly markets are at Mampong on Wednesdays and Kofiase on Fridays. Daily markets are found in almost all the smaller towns.

Water and Sanitation

Environmental and Sanitation activities are vigorously being pursued in the Municipality. Presently, huge mountainous refuse dumps, choked gutters and inadequate communal containers, broken down waste trucks, dwindling labour staff, cracked and damaged slaughterhouse, and littering of waste continue to pose serious environmental challenges in the Municipality. In addition, the challenges to sanitation in Mampong and many other districts are linked to the inability to create proper disposal points for solid waste, lack of enforcement of sanitation laws due to lack or poor financing of sanitation activities, human behavior, lack or poor sanitation infrastructure, lack of sanitation technologies among others. Although the Mampong Municipal Assembly together with Zoomlion Ghana Company Limited has instituted measures to put environmental and sanitation issues under control, it needs more allocation of resources and other measures.

Tourism

The municipality is endowed with many aesthetic features which have high potential in the area of tourism development. However, tourism services are not well developed in the Municipality. The forest Reserves are a habitat for fauna including antelopes, snakes, monkeys, as well as a large variety of birds and butterflies. It also has a flora with botanical attributes and medicinal plant species. The Atwea Mountains which used to be part of the Municipality is another important area, which when developed can add up to the tourist sites within the municipality. It currently is the most popular on which most Christians from all parts of the country lodge for prayers. The need for the Municipality to have Public—Private Partnership arrangements to develop the Atwea Mountains should be considered as a joint project for the two-sister district; Sekyere Central and Mampong Municipal.

In order to develop the tourism potential of the municipality, there is the need to improve upon physical accessibility, especially the road to the Atwea Mountains and other tourist sites. There are also hotels, guest homes and rest houses within the municipality which could be upgraded to 3rd or 4th star hotels to further enhance tourism. Among the aforementioned sites, the following sites also have tourism capabilities:

- 1. The valleys at Ninting
- 2. Mampong Scarp
- 3. Waterfall on the Sumanpa Stream at Daamang
- 4. Amapaa stream water at Worakese
- 5. Abindaali water from rocks at Tunsuom
- 6. Kogyae Forest Reserve
- 7. Natural Spring Water

Environment.

The Kogyae forest has many different species of tropical hardwood which have high economic values. The vegetation of the municipality is however rapidly becoming degraded. The forest and farmlands have been destroyed due to indiscriminate felling of trees for charcoal production and lumbering as well as crude farming practices adopted by most of the communities within the municipality and bush fires. The total forest reserve of the municipality in 1990 was 782.0km² whilst off-forest reserve was 1,336.78 km². However, as the rate of depletion of the forest increases from 3.0% to 11% with an average of 7.0% per year for the past ten years, the municipality is now left with about 121.07sgkm Forest Reserve and 58.20sgkm off-forest reserve.

Financial Institutions

The Municipal area has a number of Financial Institutions that help and support socio-economic activities to improve people's livelihoods. Some of these institutions are the Ghana Commercial Bank (GCB) and National Investment Bank (NIB) at Mampong, Otuasekan Rural Bank at Kofiase with an agency at Mampong and Kwamanman Rural Bank at Kwamang in the Sekyere Central District with an agency at Mampong. Other financial institutions helping and supporting socio-economic activities are Enterprise Life and Star life Insurance Companies.

PART B: BUDGET PROGRAMME/SUB-PROGRAMME SUMMARY

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

1. Budget Programme Objectives

To conduct the overall management and ensure the appropriate administrative support services to all other programs with regard to General Administration; Finance and Audit; Human Resource Management; and Planning, Budgeting, Monitoring, and Evaluation and Statistics.

2. Budget Programme Description

The program seeks to perform the core functions of ensuring good governance and balanced development of the Municipality through initiating and formulating policies; budgeting, planning, coordination, monitoring, and evaluation in the areas of local governance and service delivery. It further provides all the cross-cutting services required in other that the other Programmes can succeed in achieving their objectives.

The program is being delivered through the Municipal Assembly. The various organizational units involved in the delivery of the program include:

- Central Administration Department
- Finance Department
- Planning, Budgeting and Statistics Unit
- Human Resource Management Department

The programme is being implemented with a total staff strength of 124. They include Administrators, planners, budget analysts, Statisticians, human resource managers, and other supporting staff (i.e. Executive officers, Secretaries, laborers, cleaners, and drivers). The program is being funded through the Assembly's Internally Generated Fund, Government of

Ghana transfers as well as donor support.

The four (4) sub-programmes seek to:

 Implement policy decisions in the service and the provision of support services to the

- o Departments of the Assembly
- Provide sound financial management and financial administration of the Assembly
- Improve human resource capacity of all staff of Mampong Municipal
- The collection and analysis of data as well as preparation of annual action plan and budget and the provision of technical guidance to management on planning and budgetary matters

PROGRAMME 1: MANAGEMENT AND ADMINISTRATION

SUB-PROGRAMME: 1.1 General Administration

1. Budget Sub-Programme Objective

Implementation of policy decisions in the service and the provision of support services to

the

Departments of the Assembly, effective and efficient administration and organization of

the

Municipal Assembly

2. Budget sub-program Description

This sub-program seeks to collect and analyze data for report writing and also coordinates

and analyses the daily administrative routine of the Assembly.

The sub-program operations include coordination of the general administrative function

of the assembly; coordinating and regulating the transport department of the assembly;

monitoring of store operations, logistics, and procurement activities; management of

records section of the assembly and among others.

The organizational units responsible for this sub-program are the Administration,

Records,

Estate, Transport, Logistics and Procurement, Stores and Security units of the Central

Administration with the total number of thirty (30) staff. The beneficiaries of this sub-

program are the decentralized departments of the Assembly, the sub-structures, and the

general public. The sub-program is funded mainly by IGF, DACF, and GOG. Untimely
