TABLE OF CONTENTS

PART A: STRATEGIC OVERVIEW OF THE DISTRICT

Introduction

The Dormaa West District is located at the western part of the Bono Region. It is bounded in the north by the Dormaa Central Municipality, in the east by Asunafo North Municipality, in the west by La Cote d'Ivoire and in the south west by Bia East District. The district capital is Nkrankwanta, located about 125 kilometers away from the regional capital, Sunyani. It has 96 settlements, one traditional authority and one constituency: Dormaa West. The proximity of the district to La Cote D'Ivoire promotes international trade and positive socio-cultural exchanges between the district and La Cote D'Ivoire. The district has a total land area of 381.00360 square kilometers.

Establishment of the District

The Dormaa West District is one of the twelve (12) Administrative Districts in the Bono Region. It was carved out of the Dormaa Central Municipal Assembly. It was established by the Legislative Instrument (L.I 2094) and was duly inaugurated on Thursday, 28th June, 2012 with Nkrankwanta as the District Capital.

Population Structure

The population of the district based on the 2021 Population and Housing Census stood at Forty- Seven Thousand Nine Hundred and Thirteen (47,913).

The Population for the Dormaa West District, is made up of 46.7 percent females (22,391) and 53.3 percent males (25,522) with a growth rate of 2.5 percent. The district's share of the total population of the region is 4.0 percent and it is predominantly rural (GSS, 2021). The district has a rural population of 31,787 representing 66.3 percent whiles the urban population is 16,126 representing 33.7 percent. Females constitute about 46.7 percent against 53.3 percent males giving a sex ratio of 114.1 males to 100 females. The male dominance over females could be due to the rural nature of the district which is suitable for agriculture especially cocoa farming.

Vision

The vision of Dormaa West District Assembly is to improve the standard of living for all the citizenry.

Mission

The Dormaa West District Assembly exists to improve upon the living standards of the people through the effective co-ordination of the district's socio-economic activities and the creation of an enabling environment for Private-sector development in relation to effective management of all available resources.

Goals

The development goal of the Dormaa West District Assembly is to create enhanced employment opportunities and achieve equitable distribution of development benefits with emphasis on the vulnerable, and inclusion in all decision-making processes. The district's development focus as indicated above is aimed at achieving the thematic areas under the Sustainable Development Goals (SDG's)

Agriculture

Agriculture is vital to the overall economic growth and development of the Dormaa West District Assembly. Its activities utilize about 75% (825Km²) of the land area of the district. Climatic condition and soil types existing in this agro-ecological zone determine the types of crops and level of production that can be achieved in the zone.

According to the 2010 Population and Housing Census, the total population engaged in agriculture is 25,758.66

Food crop farming is what the farmers mainly practice. There is however, a substantial number who are into animal husbandry and poultry production. The major food crops produced in the district are plantain, cassava, maize, and yam. Apart from food crops, the district is also noted for the production of groundnut, tomato, cocoa, citrus and oil palm.

Average Farm Holdings

Generally, farm holdings in the district are small. About 80% of the farmers sampled had holdings of land size less than 1.0 hectare. This is lower than the national average of 2.0 hectares for small-scale farmers who cultivate between 0.8 and 2 hectares respectively. Dormaa West had an average of 0.7 hectare per small scale farmer.

About 74.3 percent of the economically active population in 2010 was engaged in agriculture. This figure has subsequently increased to the current figure of 82 percent. The data indicates that, the predominance of the agricultural sector has been increasing over the years. Agriculture remains the predominant occupation in the district. It implies that the main source of income is from agriculture as expected in a rural economy and to some extent, commercial activities.

Road Network

Most of the roads in the district capital are untarred, which has made transportation very difficult. The feeder road that connects Nkrankwanta to Krakrom, Kwakuananya is under construction. The road linking Nkrankwanta to Adabokrom in the Western Region is also under construction whilst the road linking Nkrankwanta to Kaase in the Western Region is as well under construction. More access roads have been created but there is still the need for more to be done to make the whole district motorable.

Energy

About 90% of the communities in the district have been connected to the National Grid. However, plans are underway to extend electricity to some communities as well as the main market at Nkrankwanta. Allocation has been made in the budget to procure and install low tension poles and other electrical fittings for this exercise.

Health

Both orthodox and traditional health care services are provided in the district with the main focus on curative and preventive care delivery. The District Health Directorate (DHD) has 15 health facilities within the district hospital located at the district capital Nkrankwanta. Distribution of health facilities are as follows:

| Ownership | Hospital | CHPS | Health Centers | Clinics | Maternity Homes | Total |
|--------------|----------|------|-------------------|---------|--------------------|-------|

|---------|---|---|---|---|---|----|
| Private | 0 | 0 | 0 | 0 | 1 | 1 |
| Total | 1 | 9 | 4 | 0 | 1 | 15 |

Health facilities are evenly distributed across the district. The nine (9) CHPS compounds are located in the rural part of the district whiles the health facilities are mostly found in the urban part. CHPS zones have been demarcated into 17 for the district and all have been made functional. The district hospital serves as the main referral point for all the facilities in the district.

Education

The district has one hundred and thirty-three (133) schools, which ninety-five (95) and thirty-eight (38) are public and private schools respectively. The ninety-five (95) public schools have a total number of 320 classrooms.

Market Centers

The major market center in the district is located at Nkrankwanta which operates on Fridays. The market stretches over a five-acre land, the market is now under construction to a well modern-day Market but is not being used to its full capacity due to the absence of some basic facilities such as water, warehouses and electricity at some portions and to a larger extent the limited number of lockable stalls at the market

Water And Sanitation

The Dormaa West District has had 75% of its perennial water problems solved due to the Drilling and Installation of Hand Pumps and construction and mechanisation of boreholes for communities. And through the Community water and Sanitation Agency with counterpart funding from the Assembly, the District has benefitted from The Small-Town Water System which has really gone a long way to help solve water problems in the district.

Key Issues/Challenges

There are a number of challenges facing the district as a whole some are as follows:

- Untimely release of Central Government Fund
- Inadequate financial support to the Private Sector

- Low revenue mobilisation
- Poor infrastructure development (storage, transportation, irrigation)
