PART A: STRATEGIC OVERVIEW

STRATEGIC OVERVIEW OF THE ASSEMMBLY

NAME OF DISTRICT AND ESTABLISHMENT

Gomoa West District was established by L.I. 1896 with its capital as Apam in July, 2008. It shares boundary to the North East with Agona West and Asikuma Odoben Brakwa; to the South by Gulf of Guinea; East by Gomoa Central District and Efutu; and the west Ekumfi and Ajumako-Enyan-Essiam respectively. It has a total land area of 514.2 Square Kilometres.

POPULATION

The population of the district, by the 2010 Population and Housing Census is 135,189 and with an inter-censual growth rate of 3.2% it is projected to be 197,286 in 2022. The district population is about 6.1% of the regional population. The females constitute 55.3% of the total population of the district against 44.7% for males.

DISTRICT ECONOMY

Agriculture

The food requirement for the year 2022 is projected to be 10,274 tonnes of mostly produced staple food crops, 12,328 tonnes of fruit, 14,383 tonnes of protein and 6,164 kg of vegetables.

To meet this food need, 49.6 percent of households in the District are engaged in agriculture. Out of the agricultural households, 93.0 percent are involved in crop farming, whiles 29.3 percent are into livestock farming rearing, and 1.3 percent are into tree planting whilst as many as about eight thousand (8,000) people are involved in fish farming. It must be understood that these activities are not exclusive, hence one household could be involved in one or more activities and these have been recorded as such.

Road Network

The District has a total road network of 390.25km comprising of 240km un-tarred and 150.25km tarred. 24.67km of Accra – Cape Coast section of N1 highway passes through the District from Bewadze to Gomoa Antseadze and 25.48 km of highway on Apam to Swedru road.

Education

The District has 359 basic schools (218 public and 141 private) and 3 Senior High Schools (SHS). Together, the basic schools have total enrolment of 30,984 with gender parity ratio of 1.19, 1.15 and 1.12 for pre-school, primary and JHS respectively. There 1,479 teachers in the district, out of which 911 are trained and the rest 568 untrained.

Health

The District Health Directorate has six Sub-Districts, these include Apam, Mumford, Osedze, Dago, Onyadze and Gomoa Oguaa providing services with special emphasis on primary health care at all levels. There are Twenty-Seven health institutions in the District made up of one Mission Hospital, five Health Centres, one Reproductive and Child Health Centre, seventeen CHPS zones, two community clinics and one Nutrition Rehabilitation Centre. The district has also one private maternity home. There are 78 communities in the district with 97 outreach points, 105 Trained Traditional Birth Attendants. The total number of health personnel in the district is one hundred and thirty-five (135).

Sanitation

Using an average of 300ml of faeces per person, 2.3 litres per capita sewer, 150 litres of liquid waste generation and 0.02 cubic metre of solid generation per capita.

Hence, the Assembly's main focus on managing sewer, liquid waste and refuse is geared towards improving drainage system especially within Apam, Mumford, promote public education on sanitation and food hygiene practices. CLTS is adopted to promote household latrine construction/provision to make the entire District Open Defecation free (ODF).

Water

The estimate annual water demand of the district is estimated to 6.5m m³ per year (17,800 m³ per day). These are partly supplied from two major sources of treated water for household water needs – Ghana Water Company Ltd (GWCL) and Community Water and Sanitation Agency (CWSA). There is evidence to suggest that the populace depend on sachet (0.5l packaged water in plastic bags) mainly for drinking. According to GWCL and CWSA, they serve about 70% of geographical land space, and about additional 25% depend on boreholes. Hence, the District has estimated 95% geographical coverage of potable water.

Tourism

The district is endowed with diverse tourist attractions with the potential of contributing immensely to the local economy. These attractions are mainly cultural and environmental in nature. These include Fort Patience built by the Danes 1872 at Apam, the strange rock at Dago (where a huge rock is said to be carried by a tiny rock), the saltless spring from Ekoku at the coast of Mumford. Other historical objects include the metal walking stick used by the legendary Asebu Amenfi at Gomoamaim and the slave chains used by the colonial merchants at Gomoa Nduem.

KEY ISSUES/CHALLENGES

The key challenges that confront the districts are as follows

Funding for this programme is mainly DDF, DACF and IGF.

Key challenges of the Department include delay in release of funds, limited capacity (water and sanitation engineers) to effectively deliver water and sanitation project, due to the high salinity of the soil, borehole drilling is a challenge, inadequate personnel, logistics for monitoring of operation and maintenance of existing systems and other infrastructure. The Department needs a Feeder Road Engineer to reduce work load in respect to feeder road section on the Head of Works. This leads to wrong timing of operations and projects thereby affecting implementation of projects and operations.
