The 1992 Constitution of the Republic of Ghana provides for "Decentralization and Local Government" that creates a framework for citizens' participation in decision-making and local governance. The Decentralization Policy of Ghana devolves power, functions and responsibility as well as human and financial resources from the Central Government to the Municipal level. The Kwahu South Municipality thus seeks to serve as a pivot of administrative and developmental

decision-making in the municipal and is the basic unit of government administration. Some specific functions include:

- a. Established as a monolithic structure to which is assigned the responsibility of bringing about integration of political, administrative and development support needed to achieve a more equitable allocation of power, wealth and geographicallydispersed development in Ghana,

Municipal Economy

Agriculture

The Municipality is agrarian in nature with the agriculture sector employing about 46.5% of the employed population. Workers in the service and sales occupational groups are 18.3%, craft and related trades 14.9%. The technical and associated professional's employs 12.7% and managerial categories represent 1.4% with the least proportion of occupation being clerical support workers which is 7.6%.

Road Network

The Municipality has a total road network of 6,743 km of which about 90 percent are feeder roads that are in poor conditions, especially during the rainy seasons. Consequently, transportation of food crops to the market centres is very difficult and expensive. These conditions, coupled with inadequacy of suitable storage and preservation facilities are major impediments to post harvest management.

Health

Health is one of the important sectors in the Municipality. The Municipality has two systems of health services delivery i.e. the orthodox and the traditional systems. These systems play complementary roles in delivery of health services. The orthodox system has both private and public health service providers.

The Municipality has 31 health care facilities manned by both public and private sector operators. The details are as follows; out of the 23 CHPS Zones in the Municipality only 15 have compounds, while the rest are operating from rented rooms.

Administratively, the Municipality has been categorised into six (6) health sub-municipalities which are; Asakraka, Bepong, Kwahu Amanfrom, Kwahu Praso, Mpraeso and Nkyenenkyene, for effective health delivery. The Municipality is also home to a Nursing and Midwifery training school. The doctor to patient ratio is 1:12,277 and nurse to patient ratio is 1:337.

Education

The number of educational institutions in the Municipality is 255. Out of which 180 (70.6%) are public schools while 80 representing 29.4% are privately owned. For all levels of education, more than 65% are publicly owned. The Municipality has four (4) Senior High Schools. The state of educational infrastructure can be described as moderate.

Market Centres

The Municipality has three major markets Centres located at Nketepa, Bepong and Mpraeso and three minor markets at Adawso, Kwahu Praso and Ntomem. Markets are organized on either daily or weekly basis. The Assembly generates much of its internally generated fund from business operating permit and market tolls.

Water and Sanitation

The collection, transportation and disposal of solid and liquid waste are the sole responsibility of the Municipal Assembly which operates through the Zoomlion Company limited. Solid waste is done in three ways: door to door, dumping at refuse site and communal container system. The Municipality has one final disposal site. In an attempt to improve the general waste management, the Assembly has planned to acquire six (6) acres of land to be develop by the Zoomlion Ghana limited.

Tourism

The Kwahu South Municipality, with its capital town at Mpraeso has an active social atmosphere which attracts a mix of cultures from far and near, especially during Easter festivities and times of funeral. The Municipality also accommodates some tourism potentials including Paragliding at Mountain Odweanoma (Atibie), Nkofieho Cave of life and Water fall at Twenedurase.

Environment

The Municipal has a unique natural environment and resources that affect both human and economic activities. Weather conditions in the Municipality are generally cool due to its location in the wet semi-equatorial climate with a double maxima rainfall, recording an average annual rainfall between 1,270mm and 1,651mm.

Water and Sanitation

The major sources of potable drinking water are pipe-borne water system and boreholes (Mechanized and Hand-pumped) for the urban and rural communities respectively. The standard in terms of pipe-borne water and borehole is 350 people per each sources of water.

Vegetation

The Municipality lies within the semi-deciduous forest zone. The vegetation is dense with most trees shedding their leaves in the dry season. Trees of economic value like Milicia Exceslsa (Odum), Sterculia Rhinopetala (Wawa), and Entandrophragma Cylindericum (Sapele) are found in the forest. The forest is made up of three layers namely the upper, middle and lower layers. The forest is however, still in their natural state in the reserve areas. Some of the forests include the Southern Scarp Forest (146.38kmsq), Oworobong South Forest (35.54kmsq). Together, the reserve covers a total of 181.92kmsq according to the records obtained from the Forestry Department of the Municipality.

Child Protection

The Municipality has a very youthful population and there are a lot of factors that predisposes them to risks. Majority of children in the Municipality have been left in the care of their grandparents' whiles the parents travel to other cities to look for better opportunities. The grandparents mostly are unable to give the children the best care and upbringing which exposes them to danger. The Department of Social Welfare and Community Development work closely with communities to provide quality care and support to vulnerable and disadvantaged individuals, caregivers and families within varied settings. Due to the long distance between some communities and the Department, many individuals, families and caregivers are discouraged to report child welfare cases to the Department. Child Protection Committees have been formed in some communities to help resolve child welfare issues at that level and those cases beyond them will be referred to the Department for redress.
