#### PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

## 1.0 ESTABLISHMENT OF THE DISTRICT

The Tempane District Assembly was established by the Legislative Instrument (LI) 2352 of 2017. It is the highest political and administrative authority in the District.

Section 5 (122) of the Local Governance Act of 2016, (Act 936) envisages the implementation of the composite budget system under which the budgets of the departments of the District Assemblies would be integrated into the budgets of the District Assemblies. Also, the Public Financial Management Act of 2016, Act 921 Section 19-35 further provides for the preparation of budgets and strictly seeing to their implementation to ensure prudent management of public financial resources by MMDAs. In accordance with these provisions, the Tempane District Assembly prepares its 2023-2026 Composite Programme Based Budget Estimates.

#### 1.1 Location and Size

The District is located to the South Eastern corner of the Upper East Region of the Republic of Ghana. It shares boundaries with Garu District to the North, Pusiga District to North East, Bunkpurugu-Yunyoo District to South East, and the Republic of Togo to the East. It covers an area of 1,230 Km2. It lies approximately on latitude 100 38IN and110N and longitude 00 06I E and 00 23I E.

This is further illustrated by the Figure 1.0 below.

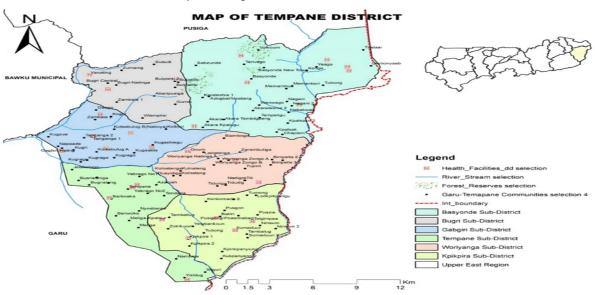

Figure 1.0: Map of Tempane

### 1.2 Population Structure

The 2021 Population and Housing Census estimated the District Population to be 86,993 for Tempane. Comprising of 41,268 males representing 52.6% and 45,725 females representing 47.4% of the total population. With an annual estimated growth rate of 1.37%, the population of the district by the end of the year 2023 is estimated at 89,493 The male and female populations are also estimated to be 67,398.50 and 61,613.20 respectively by the end of the year 2023.

The age-sex structure of the District's population depicts relatively younger population which has serious implications for planning and decision making with regards to provision of social amenities such as schools, hospitals, potable water among others.

Currently there is a growing incidence of child trafficking condoned by parents or relatives who apparently cannot cater for these children.

Again, there exist a high age-dependency ratio is the ratio of persons in the dependent ages (generally under age 15 and over age 64) to those in the economically productive ages (15-64 years) in the population. This signify the level of stress on the working population.

#### 2.0 VISION

To become a very effective and efficient decentralized institution that creates opportunity for all categories of people to participate in decision making and human resource development in partnership with other public organizations, the private sector and all stakeholders.

#### 3.0 MISSION

The Tempane District Assembly exists to provide goods and services for the sustainable development of the people in the District through the mobilization of both human and material resources in a participatory Local Government Structure in an open and transparent environment.

#### 4.0 GOALS

The major goal of Tempane District for this current 2022 – 2025 Medium-Term Development Plan is to build a prosperous society with equal opportunity through improved quality of education, enhanced livelihoods, improved health care services and healthy conditions and improved local governance, public safety and public security while safeguarding the environment by the year 2025.

#### **5.0 CORE FUNCTIONS**

#### 6.0 DISTRICT ECONOMY

### 6.1 Agriculture

The District has large track record of very fertile land that can grow large variety of crops especially cereals and grains (Maize, millet, soya beans, groundnuts, cowpea, sorghum, sweet potatoes, Rice, etc) and vegetables such as tomatoes, onion and pepper.

#### Extension Officer-Farmer ratio

Having a total 19 AEAs (Comprising of 8 AEAs and 11 NABCO trainees). The farmer to AEAs ratio is 8,925:1. This is very high compared to the FAO recommended farmer to AEAs ratio of 500:1.

#### Planting for Food and Jobs

The government Flagship programme, planting for Food and Jobs has received the necessary support. Farmers benefitted from subsidized inputs which include; synthetic and organic fertilizers, and seed for farmers especially the poor small-scale farmers. DAOs and AEAs sensitized and registered farmers to benefit PFJ inputs.

Fertilizer retailers were also sensitized, screened and registered to participate in the PFJ.

Fertilizer Distribution; Under the same programme, about 7,663 Farmers were supplied with Fertilizer for farming in the second quarter 2022 farming season comprising of 4,598 males and 3,065 females.

Improved seed varieties; about 2,452 Farmers were supplied with improved seeds for farming in the second quarter 2022 farming season comprising of 1,349 males and 1,103 females.

#### Planting for Export and Rural Development (PERD)

Under the planting for Export and Rural Development programme, the district was able to establish 8 nursery sites for the tree crop at Kugrago, Tempane, Nyosbarah, Kongo, Garu-Tangzug, Bugri, Subzunde and Busnatenga.

The statistics are illustrated below:

Table 1.0: Established Nurseries of Tree Crop

| NO | Type of seedling | No. of seedlings | Distribution | Area coved (acres) |
|----|------------------|------------------|--------------|--------------------|
| 1  | Cashew           | 10,245           | 5,200        | 26                 |

The District intends to concentrate more on cashew and mangoes due to the climatic conditions prevailing.

### Rearing for Food and Jobs (RFJ)

Under this programme, 735 farmers were sensitized on RFJ.

245 farmers (96 males, 149 females) have been supply with poultry under the RFJ during the first half year of the year. Monitoring of the beneficiaries is ongoing.

#### 6.2 Road Network

In terms of road infrastructure, the District has a total road network of 186.08 Km length: Graveled works of 101.03Km representing 54.29%, Earth Surface of 84.78Km representing 45.56% and Bitumen of 0%.

As part of 2023 budget implementation, the Assembly was able to reshape 8.0km Woriyanga-Akara feeder road and also work is on-going in maintaining Basyonde-Widana

feeder road (5Km). It is our hope that, the 2023 budget would enable the Assembly open up most of the inaccessible communities to promote local economic growth with support from World Bank through the Ghana Productive Safety Net Programmes (GPSNP) and the Ghana Road Fund.

#### 6.3 Energy

### Access to Electricity

Out of the about 221communities in the district, about 11 communities representing 4.98% are connected to the National grid. Efforts are being made to connect more of the communities to the National grid.

#### Fuel Wood

Firewood and charcoal continue to be the predominant source of energy for domestic activities especially, household cooking among others. This however, has the tendency of contributing to deforestation and climate change issues.

#### 6.4 Health

Good health is critical to socio-economic development. This section looks at the general framework under which health services are delivered in the District. It concerns itself with the type(s) and distribution of health facilities, major diseases as well as on-going programmes and projects in the health sector.

#### Health Infrastructure

The District has a total of Thirty-two (32) health facilities which includes the following;

Table 2.0: Health facilities

| SUB-DISTRICT | CHPS | CLINIC | HEALTH CENTRE | TOTAL |
|--------------|------|--------|---------------|-------|
| Basyonde     | 6    | 0      | 1             | 7     |
| Bugri        | 3    | 0      | 1             | 4     |
| Gagbiri      | 4    | 0      | 0             | 4     |
| Kpikpira     | 5    | 1      | 0             | 6     |

| Tempane   | 2  | 3 | 0 | 5  |
|-----------|----|---|---|----|
| Woriyanga | 4  | 0 | 2 | 6  |
| Total     | 24 | 4 | 4 | 32 |

From the table 2.0 above, it is evident that the health needs of the district are served by CHPS Compounds and health centers as the district is without a district hospital. The District is however privileged to be benefitting from the Agenda111 District Hospitals Project which is currently under construction.

## Top Ten Diseases/Ailments

The district also have the following predominant disease/ailments; Malaria, URTIs, Typhoid fever, Skin diseases, Diarrhoea diseases, Arthritis, Pneumonia, Acute UTIs, Septicemia, acute eye infection.

#### HIV/AIDS:

The prevalence rate in the District 0.2% as at the end of August 2022. The affected people falls within the ages 15years – 49 years. This implies that the prevalence rate is among the youth and they are most vulnerable.

As part of the district priority area of prevention of new infections of HIV virus, effort to reduce the number of HIV infections in both vulnerable groups and general population were critical hence the following activities are always carried out by the District AIDS committee;

- Prevention of mother- to- child transmission (PMTCT) carried out in all the health facilities, where pregnant women are tested.
- Information, Education and Communication.
- Promotion of safer sex practices
- Voluntary Counseling and testing (VCT)

Positive cases detected are put on ARV prophylaxis. Patients who are put on ARV prophylaxis live a normal live.

#### **National Health Insurance Scheme**

The district is also implementing the national health insurance scheme. However, it is important to mention that, citizens rely on the sister district, Garu for this services as the district is yet to operationalize the newly constructed Office Complex. Approximately, 40-45% of the population have enrolled with the scheme. Nevertheless, the renewal rate is on the decline due to the perception that, most of the clients who pay for health services directly receives much attention. This is also attributed to the delay in honoring claims to health centers within the district like other health facilities in the country.

#### 6.5 Education

The profile to education focuses on issues such as literacy rate, available facilities and Government Flagship programmes in the area of education.

#### **Basic Education Certificate Examination (BECE) Performance**

About 1252 students participated in the 2021 Basic Education Certificate Examination (comprising of 638 Boys and 614 Girls). The pass rate for boys and girls were 44.5% and 34.8% respectively. The overall pass rate for the district stood at 39.7% which is below average. This can be attributed to inadequate teaching and learning materials and the poor state of educational infrastructure among others.

#### **Teacher-Pupil Ratio**;

Teaching and learning is affected seriously with a teacher-pupil ratio of 4.12% at the basic school.

#### **Educational Institutions/Facilities**

The current educational institutions are as follows:

Table 3.0: Educational facilities

| TYPE OF EDUCATIONAL INSTITUTION   | NUMBER AVAILABLE |
|-----------------------------------|------------------|
| Senior High Schools               | 2                |

The state of infrastructure of schools at the basic level requires general maintenance works and most schools do not have adequate library facilities and workshops for technical and vocational training.

#### **Ghana School Feeding**

The Tempane District is one of the beneficiaries of this important social intervention programme. At the end of the 2020/2021 academic year, about 19,451 pupils (9,835 Boys and 9,616 Girls) are currently benefiting from the programme in all the 52 basic schools in public schools (Kindergarten and Primary) within the district.

## Free Senior High School

With the introduction of the Free Senior High School Policy in 2017, the Tempane Senior High School (SHS) is a proud beneficiary of this important intervention by Government.

#### **6.6 Market Centres**

The District has seven major market centers namely; Tubong, Bugri, Woriyanga, Basyonde Gagbiri, Tariganga and Kongo. The most vibrant amongst them are Woriyanga and Tubong which contributes over 60% of the revenue generated from fees. Baysonde, Bugri and Gagbiri are contributing 17.03%, 13.3% and 8.46%, respectively

The district in tends to construct a 2No10Unit Market sheds at Bugri to enhance local economic development.

#### 6.7 Water and Sanitation

#### Water

The current water delivery system in the District is average. Many of the people in the rural communities have access to reliable potable water. Boreholes constitute the major potable water sources in the rural areas.

There is (1) Small Town Water and Sanitation Project and one (1) mechanised water system in the district. They are Tempane/ Yabraago and Kpikpira respectively. The Tempane Small Town Water and System is however not functioning now due to poor management by the Water Board. The district has about 50% borehole coverage rate and a few are however non-functional especially the boreholes that have Nira Pumps. There are also Fifty-Six (56) Hand-dug wells with pump but only nine are functional though seasonal. The current coverage of water in the District is 50%, which is far below the target for the Sustainable Development Goal Target of 76%. This coverage is however challenged by issues such as distance, quality, spatial distribution, and population factors.

It is the intention of the District Assembly to provide similar Small-Town Water and Sanitation Systems to Woriyanga, Bugri and Rehabilitate the Tempane Water System.

#### Sanitation

In order to improve solid waste management in the district, all the Six Town/area Councils were assisted to undertake some clean-up exercises at their respective areas.

Fumigation of refuse dump sites and markets by Zoomlion was done at all the Six Area Councils and markets in the district against COVID-19 Pandemic. Again, 8No. Boreholes were constructed in the peak of the pandemic to ensure regular supply of potable water to aid hand washing among others. About 530 covid-19 items were distributed to markets and publics places. These included 350 veronica buckets, liquid soaps, sanitizers, nose masks, dustbins and tissues to market and public places.

On the issue of liquid waste management, Support for Community Led Total Sanitation (CLTS) activities were still ongoing in some selected communities in order to get

households own their household latrines. With a target of 20 communities, 15 communities were declared ODF, representing about 75.%.

#### 6.8 Tourism

The District has a less tourist potentials. However, there are prominent festivals celebrated in the District are such as the Samanpid of the Kusasis, Ziisar of the Kusasis and Bimobas and the Danjuar festival of the Bimobas which serve as a source tourists attraction to the district.

#### 6.9 Environment

There is no forest reserve in the district. The district is challenged with sand winning activities which also leads to erosion and degradation. Some tree spices are getting wiped out and there is need to increase forest cover through introduction of drought resistant tree seedlings to protect the indigenous vegetation cover. This phenomenon is seriously affecting the fertility of the soil and crop yield/production.

#### 7.0 KEY ISSUES/CHALLENGES

In an attempt to ensure communities, get their share of development and improved service delivery, the District/Assembly is faced with some of the following challenges, among which the 2023 Composite Budget seeks to address going forward;

- Lack of Residential accommodation for staff.
- Inadequate staff for Business Advisory Center (BAC), Physical Planning Dept.,
   Procurement unit, Radio and MIS office
- Inadequate office equipment
- Inadequate vehicles/motors for monitoring and supervision of projects etc
- Poor road networks
- Inadequate access roads
- Poor and inadequate classroom infrastructure
- Inadequate furniture for schools
- Inadequate/Poor health infrastructure. i.e. the CHPS Compounds etc
- Environmental degradation (Erosion and deforestation)

- Inadequate toilet facilities in communities
- Inadequate access to potable water in most communities

It is evident from table 5.0 above that COVID-19 has affected the collection of IGF for the year. The performance of License and fees are still the major sources of IGF. Most of the revenue heads performance are below the target. Strategies must therefore be adopted to ensure that the annual target is achieved.

From table 6.0 above, it is observed that the overall performance of revenue by 31<sup>st</sup> August, 2022 was below average. This was due to non- release of DACF and Donor Partner funds for the period. The performance of IGF is also below target. Efforts must therefore be directed at mobilizing more IGF to support in the budget implementation.

## 11.0 REVENUE MOBILIZATION STRATEGIES

The implementation of the years' budget relies heavily on the amount of revenue realized. As a result, much effort must be directed in raising Internally Generated Funds (IGF) of which the Assembly has absolute control over. This, when coupled with the timely releases of the grants would enable the Assembly to fulfill its development agenda for the year. The following strategies are therefore expected to be implemented within the year to ensure the Assembly maximizes its revenue mobilization.

Table 9.0: Revenue Mobilization Strategies

#### PROGRAMME 5: ENVIRONMENTAL MANAGEMENT

#### **Budget Programme Objectives**

To manage disasters by coordinating resources and developing the capacity of communities to respond effectively to disasters and improve their livelihood through social mobilization, employment generation and poverty reduction projects.

#### **Budget Programme Description**

The National Disaster Management Organization (NADMO) section under the Assembly is responsible for delivering the sub-programme. It seeks to assist in planning and implementation of programmes to prevent and/or mitigate disaster in the District within the framework of national policies. The sub-program operations include;

To facilitate the organization of public disaster education campaign programmes to create and sustain awareness of hazards of disaster and emphasize the role of the individual in the prevention of disaster. To assist and facilitate education and training of volunteers to fight fires including bush fires or take measures to manage the after effects of natural disasters.

Prepare and review disaster prevention and management plans to prevent or control disasters arising from floods, bush fires, and human settlement fire, earthquakes and other natural disasters.

To participate in post disaster assessment to determine the extent of damage and needs of the disaster area.

Co-ordinate the receiving, management and supervision of the distribution of relief items in the District. Facilitate collection, collation and preservation of data on disasters in the District. The sub-programme is undertaken by officers from the NADMO section with funding from the GoG transfers and Assembly's support from the Internally Generated Fund. The subprogramme goes to the benefit of the entire citizenry within the District. Some challenges facing the sub-programme include inadequate office space, untimely releases of funds and inadequate logistics for public education and sensitization.

#### PROGRAMME 5: ENVIRONMENTAL MANAGEMENT

# SUB-PROGRAMME 5.1 Disaster prevention and Management Budget Sub-Programme 5.1.1 Disaster Management Operations

#### **Budget Sub-Programme Objectives**

To promote effective disaster prevention and mitigation

To improve investment in disaster risk reduction and resilience

#### **Budget Sub-Programme Description**

This seeks to reduce the risk and impact of disasters on the citizenry by involving community members on disaster prevention and management activities. This would be done by preparing disaster plans, holding series of meetings with community members on how to prevent and manage disasters; forming disaster volunteer groups/fund clubs to assist in public education among others.

The organizational units that would be involved in the implementation of this budget sub-programme are district fire service, district health directorate, district police service, central administration, and finance and information service department. This would be funded by IGF and DACF. The beneficiaries are the citizenry. The staff strength is four (4). The key challenge to this budget sub-programme is lack of commitment by community members' disaster prevention and management activities and inadequate support disaster victims.

#### **Budget Sub-Programme Results Statement**

The table indicates the main outputs, its indicators and projections by which the department for Disaster Prevention and Management measures the performance of this sub-programme. The past data indicates actual performance whilst the projections are the department's estimate of future performance.
