PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

1. ESTABLISHMENT OF THE DISTRICT

The Sissala East Municipality was created out of the then Sissala District by L.I.2280 in 2018. The Municipality is located in the North-Eastern part of the Upper West region of Ghana. It falls between Longitudes. 1.300 W and Latitude. 10.000 N and 11.000 N. The Municipality has a total land size of 4,744 sq km, representing 26% of the total landmass of the region. It shares boundary on the North with Burkina Faso, on the East with Kassena Nankana and Builsa Districts, to the South East with West Mamprusi Municipal, South West with Wa East and Daffiama-Bussie-Issa Districts and to the West by Sissala West District.

The Sissala East Municipal Assembly has Twenty-One (21) Electoral Areas and One (1) constituency. It has a General Assembly Membership of Thirty-Three (33) comprising Twenty-One (21) elected Members and Ten (10) Government Appointees in addition to the Hon. Municipal Chief Executive and the Hon. Member of Parliament (MP) representing Three (3) (9%) Females and Twenty-Eight (30) (91%) males. The Assembly has five (5) sub-structures which consists of Tumu, Nabulo, Bujan, Sakai and Wellembelle zonal councils. These sub-strictures are supported by One Hundred and Five (105) Unit Committees.

Population Structure

The 2021 National Population and Housing census results put the population of the Municipality at 80,619 with a population density of 12 persons per sq.km. Out of this, 39,868 are males and 40,751 are females. Eighteen Thousand Seven Hundred and seventy (18,770) of the population lives in the urban area whilst Sixty-one Thousand, Eight Hundred and Fourty-Nine (61,849) lives in the rural areas.

2. VISION

The Sissala East Municipal Assembly aspires to "provide a qualitative living standard for the people at all times". This is comparable with Ghana's vision of

"a just, free, and prosperous nation with high levels of national income and broadbased social development" as contained in the long-term National Development Plan.

3. MISSION

The Sissala East Municipal Assembly exist to improve the livelihood of its people by initiating the necessary socio-economic Programmes and projects creating an enabling environment for community and private sector participation for development of the municipality in collaboration with all stakeholders.

4. GOALS

The goal of the Sissala East Municipality is to advance equitable socio-economic development through effective human resource development, good governance and private sector empowerment.

5. CORE FUNCTIONS

As conferred on the Assembly under sections 12 and 13 of the Local Governance Act, 2016 (Act 936) the Municipality's core functions are;

- Exercise political and administrative authority in the Municipality.
- Promote local economic development; and provide guidance, give direction to and supervise other administrative authorities in the Municipality as may be prescribed by law.
- Exercise deliberative, legislative and executive functions.
- Formulate and execute plans, programs and strategies for the effective mobilization of the resources necessary for the overall development of the Municipality;
- The Assembly is responsible for the development, improvement and management of human settlements and the environment in the Municipality.

 The Assembly in co-operation with the appropriate national and local security agencies, be responsible for the maintenance of security and public safety in the Municipality.

6. MUNICIPAL ECONOMY

The economy of the Municipality is largely agrarian (69%), service and commerce fifteen percent (15%), and the industrial sector 16%. The Sissala East Municipal is basically rural with more than eighty percent (80%) of the people living in rural settlements and engaged in farming.

Agriculture

The agrarian nature of the municipality makes agricultural related activities predominant, employing greater proportion of the population. The main crops produced includes; Maize, Groundnut, Millet, Yam and Rice, etc.

Road Network

The Municipality has a major problem of poor road infrastructure. This affects the socio-economic development of most communities; typical examples of such communities include Gwosi, Santijan and Bawiesibelle which are almost cut off from the rest of the Municipality during the peak of the rainy season. For instance, such communities are unable to access certain facilities such as health, market and education. At the same time it is not possible to reach them with development programme and interventions.

With only 6Km tarred within the Tumu Township, the rest of the 320 Km feeder and the linking highways portions of the roads are all untarred making transportation exhaustive and costly.

Energy

Energy especially electricity is very key to production and lures investments to every society. Currently, the municipality has electricity coverage of about 90% with 11 communities in the municipality yet to be connected to the national grid. Localities such as, Santijan, Gbenebisi, Nitalu, Tanla, Nahadakui, Kwapun, Wuru, Kupunjoha, Kassana, Kassanpuori and Katina are yet to benefit. The usage of Liquefied Petroleum Gas has also increased tremendously due to establishment of two (2) LPG stations which provide services for the populace. Majority of the households in the municipality still rely on firewood and charcoal for cooking at the expense of the environment. Shea butter oil and kerosene which were formally used by households for lighting, is now in extinction.

Health

The formal health system in the Municipality consists of a hospital, Eight (8) Health Centers (HC), twenty four (46) functional CHPS zones (4 without compound), 1 Mother/Child Health and Family Planning (MCH/FP) Clinic, one (1) private clinic, one (1) maternity home, and dysfunctional twelve Community Nutrition Centers.

The Municipality has only two Ghanaian doctors. The doctor patient ratio is 2:31,053 people per a Doctor. This is same as at last year but an improvement over subsequent years where only one doctor was present for some about three consecutive years. This hospital also serves as a referral center for the Sissala West District and some indigenes of Burkina Faso.

Health Financing, a modern Municipal Hospital and lack of morgue remain as huge challenges to the health sector.

Education

The Sissala East Municipal Assembly through its Education Directorate administers education to a total of are 23,231 students comprising 11,586 boys and 11,645 girls in both first and second cycle schools in the municipality, Currently the Municipality has the following educational institutions; 215 schools out of which 194 are Public and 21 Private. Seventy-five (75) KGs, out of which 65 are public and 10 are private. Seventy-six (76) Primary Schools out of which 66 are Public and 10 Private. Sixty (60) JHSs out of which 59 are Public and 1 Private. Two (2) SHSs, of which all are Public. One (1) College of Education. One (1) vocational institution. There are 23,231 students comprising 11,586 boys and 11,645 girls in

both first and second cycle schools in the municipality. There are 19,928 students in the first cycle schools of which 9,827 are boys and 10,101 are girls. In the second cycle levels, we have 1,759 boys and 1,544 are girls given a total of 3,303 second cycle students in the municipality. The education directorate also have staff strength of 1,235 comprising; 723 males and 512 females. At the basic level we have 902 teaching staff of which 483 are males and 419 are females. At the second cycle level we have 234 teaching staff of which 188 are males and 46 are females. At the Municipal Education Directorate and the school levels, we have 99 Non-Teaching staff of which 52 are males and 47 are females. East Circuit , Nabulo Circuit, Tumu West Circuit, Tarsor/Kulfou Circuit, Sakai Circuit , Kunchogo Circuit, Welembelle Circuit , Fachoboi Circuit and Bujan Circuit.

Market Centres

Commerce is one of the major sources that simulate Local Economic development in the Municipality. The commercial activities are predominantly buying and selling of agricultural produce, consumer goods and second hand items. Currently, there are about fifteen Thousand small commercial activities across the Municipality and these are brisk only during weekly market days which come on at 6 days intervals. There are two major weekly markets in the Municipality namely; Tumu and Bugubelle. Besides these weekly markets, there are a few stores with very limited shopping spaces in the big settlements. They carry a wide range of consumer goods and a few households' equipment and construction materials.

Water and Sanitation

The Municipality has three Small Town Water Systems namely Tumu, Sakai and Wallembelle. On water, the coverage has depreciated from 84. % in 2018 to 81.3% (June, 2019). With a total of 189 boreholes, 161 in good condition and 28 broken down or dysfunctional.

On sanitation, coverage is just 20% with high incidence of open defecation. Waste management is a huge challenge with poor collaboration between Zoom lion and the MA.

Tourism

A number of tourism potentials have been identified and these include the following:

- Kassana slave market at Kassana.
- Wotuomo cave between Dangi and Lilixia
- Hunter's footprints at Dolibizon
- Mysterious rocks at Pieng
- Mysterious river at Nmanduanu
- Bone setters at Wuru, Kwapun and Banu
- Historical site at Santijan
- The White man's grave at Tumu.

These tourist sites can be developed further and they can be a major source of revenue for local economic development.

Environment

The environment is constantly changing. However, as the environment changes, so does the need to become increasingly aware of the problems that surround it. With a massive influx of natural disasters, warming and cooling periods, different types of weather patterns have existed. Climate change is a major environmental problem that has surfaced in the last couple of decades in the Municipality. It occurs due to rise in global warming leading to increase in temperature of atmosphere. Climate change has various harmful effects but not limited to melting of polar ice, change in seasons, occurrence of new diseases, frequent occurrence of floods and change in overall weather scenario. The effect of climate change on agriculture which is the mainstay of the people is enormous leading to high reduction of yields across major crops cultivated emanating from poor soil fertility.

Forests are natural sinks of carbon dioxide and produce fresh oxygen as well as helps in regulating temperature and rainfall. However the vegetation resources in the municipality have been under intense pressure for both domestic and commercial use. Domestically, over 90% of the population rely on fuel wood and charcoal as the main source of energy for cooking. Also, trees are cut for gardening and shelter. The farming practice of slash and burn as very common in the municipality where large tracts of vegetative cover is being depleted annually through bush burning. Aside charcoal burning being a major business venture by some residents of the municipality where thousands of bags of charcoal are being transported into southern Ghana daily, there have been massive harvesting of timber species in the municipality as well as overgrazing by cattle of Fulani Herdsmen. All these contribute tremendously in degrading the land. There is therefore the need to carry out massive sensitization on the need to undertake afforestation Programmes and also avoid bush burning. Stringent measures should be taken in collaboration with communities in the protection of the vegetation.

Key Issues/Challenges

- Over dependence on rain fed agriculture and low farming technology.
- High post-harvest loses
- Low small scale industrial establishments and poor industrial technology.
- Difficult Physical and Economic access to Health Service.
- Inadequate access to water and sanitation facilities.

Revenue and Expenditure Performance

Under the fiscal decentralization concept of local governance, local governments have the assignment of preparing their own budgets by way of raising their own revenue and expenditure for their service delivery agendas. The sources of revenue to every assembly in Ghana takes the form of Internally Generated Funds, Central Government transfers and Donations and Grants from development Partners. On the other hand, the expenditure of every assembly in Ghana is classified in a form of Compensation, use of Goods and Services and Assets or capital expenditure.

Revenue

The revenue performance of the assembly in respect of internally generated and transfers from central government and development partners in a form of donations and grants are shown in the accompanying tables.

Revenue Mobilization Strategies

The following strategies would be put in place to address the anticipated challenges in the revenue mobilization drive of the Assembly:

- Assembly would support and encourage revenue collectors to establish rapport with and educate tax payers on the need to pay taxes to the Assembly
- Assembly would attend to the immediate business needs of tax payers by providing infrastructure, sanitary and peaceful environment etc.
- Regular and spontaneous monitoring and inspection of revenue collectors and let them account for monies collected for the day/period
- Team work among revenue collectors must be promoted.
- Network with other stakeholders such as the Police, the Courts, transport unions, traditional authorities, environmental health officers, traders associations, market queens, Assembly Members and religious groups, so as to ensure compliance and tax payment
- Regular training of revenue staff will keep them updated and gain new ideas, knowledge and skills of revenue mobilization
- Motivate revenue staff and provide basic logistical needs of revenue collectors.

SUB-PROGRAMME 1.1 General Administration

1. Budget Sub-Programme Objectives

- To provide administrative support and ensure effective coordination of the activities of the various departments and quasi institutions under the municipal Assembly.
- To ensure the effective functioning of all the sub-structures to deepen the decentralization process.

2. Budget Sub- Programme Description

The General Administration sub-programme looks at the provision of administrative support and effective coordination of the activities of the various departments through the Office of the District Co-ordinating Director. The subprogramme is responsible for all activities and Programmes relating to general services, internal controls, procurement/stores, transport, public relation and security.

The core function of the General Administration unit is to facilitate the Assembly's activities with the various departments, quasi institution, and traditional authorities and also mandated to carry out regular maintenance of the Assembly's properties. In addition, the Municipal Security Committee (MUSEC) is mandated to initiate and implement Programmes and strategies to improve public security in the Municipality.

The Internal Audit Unit is authorized to spearhead the implementation of internal audit control procedures and processes to manage audit risks, detection and prevention of misstatement of facts that could lead to fraud, waste and abuse to the Assembly. Under the sub-programme the procurement processes of Goods and Services and Assets for the Assembly and the duty of ensuring inventory and stores management is being led by the Procurement and Stores Unit.

The number of staff delivering the sub-programme is Fifty-two (52) with funding from Decentralized transfers such as DACF, DACF-RFG, etc. and the Assembly's Internally Generated Fund (IGF). Beneficiaries of this sub-program are the departments, Regional Coordinating Council, quasi institutions, traditional authorities, non-governmental organizations, civil society organizations and the general public.

The main challenges of this sub programme are usually the delay and untimely release of funds, and the conflict of centralization and decentralization.

SUB-PROGRAMME 1.3 Human Resource Management

1. Budget Sub-Programme Objectives

- To achieve institutional performance goals that are linked to the individual and team performance objectives, as the basis for measuring performance results and merits.
- To provide Human Resource Planning and Development of the Assembly.
- To develop capacity of staff to deliver quality services.

2. Budget Sub- Programme Description

The Human Resource Management seeks to improve the departments, division and units' decision making and build capacity of the manpower which will ultimately improve the workforce and organizational effectiveness. In carrying out this subprogramme it is expected that productivity would be enhanced at the Assembly as well as decision making in the management of Human Resource.

Major services and operations delivered by the sub-program include human resource auditing, performance management, service delivery improvement, upgrading and promotion of staff. It also includes Human Resource Management Information System which ensures frequent update of staff records through electronic means, guaranteeing efficient and good salary administration, facilitation of recruitment and selection as well as postings of competent staff to fill available vacancies at the municipality.

Under this, only two (2) staff carry's out the implementation of the sub-programme with main funding from GoG transfer and Internally Generated Fund (IGF). The work of the human resource management is challenged with inadequate staffing levels and logistics. The sub-programme would be beneficial to staff of the

Departments of the Assembly, Local Government Service Secretariat and the general public.

SUB-PROGRAMME 1.5 Legislative Oversights

1. Budget Sub-Programme Objective

• To ensure full implementation of the political, administrative and fiscal decentralization reforms.

2. Budget Sub- Programme Description

This sub-programme formulates appropriate specific local level policies and implements them in the context of national policies. These policies are deliberated upon by its Zonal/Town/Area Councils, Sub-Committees and the Executive Committee. The report of the Executive Committee is eventually considered, approved and passed by the General Assembly into lawful local policies and objectives for the growth and development of the municipality.

The office of the Honourable Presiding Member spearheads the work of the Legislative Oversight role and ably assisted by the Municipal Coordinating Director. The main units of this sub-programme are the Zonal/Town/Area Councils, Office of the Presiding Member and the Office of the Municipal Coordinating Director.

The activities of this sub-programme are financed through the IGF and DACF funding sources available to the Assembly. The beneficiaries of this sub-programme are the Zonal/Town/Area Councils, local communities and the general public.

Efforts of this sub-programme are however constrained and challenged by inadequate logistics to the Zonal/Town/Area Councils of the Assembly.

1. Budget Sub-Programme Objectives

- To ensure that ecosystem services are protected and maintained for future human generations.
- To implement existing laws and regulations and programmes on natural resources utilisation and environmental protection.
- Increase environmental protection through re-afforestation.

2. Budget Sub- Programme Description

The Natural Resource Conservation and Management refers to the management of natural resources such as land, water, soil, plants and animals, with a particular focus on how management affects the quality of life for both present and future generations.

Natural Resource Conservation and Management seek to protect, rehabilitate and sustainably manage the land, forest and wildlife resources through collaborative management and increased incomes of rural communities who own these resources.

The sub-programme brings together land use planning, water management, biodiversity conservation, and the future sustainability of industries like agriculture, mining, tourism, fisheries and forestry. It also recognises that people and their livelihoods rely on the health and productivity of our landscapes, and their actions as steward of the land plays a critical role in maintaining this health and productivity. The sub-programme is spearheaded by Forestry Section and Game and Wild Life Section under the Forestry Commission.

The Forestry Services Division is 'To leave future generations and their communities with richer, better, more valuable forestry endowments than we inherited' and 'To sustainably develop and manage Ghana's Forestry resources'. The Division:

- Protects, manages and develops forest resources in the national interest and for the benefit of owners;
- Establishes planning systems for protection, harvesting and development of the reserves in a sustainable manner;
- Provides management and technical services with regard to matters of protection, management and development of reserves;
- Promote public awareness, understanding and support for forest resources conservation;
- Regulates the harvesting of forest resources;
- Facilitates the development of forest plantations; and
- Undertakes and also co-ordinates the development of forest plantations for the restoration of degraded land.

The Wildlife Division is 'To leave future generations and their communities with richer, better, more valuable wildlife endowments than we inherited' and 'To sustainably develop and manage Ghana's Wildlife resources'. The Wildlife Division (WD) conserves wildlife resources in Ghana and manages wildlife reserves areas within ecological zones of the country. The division:

- Regulates the utilization of the wildlife resources;
- Manages the nation's Protected Areas;
- Assists the private sector and other agencies in the implementation of wildlife policies;
- Facilitates research for continuous wildlife improvement; and
- Restores and expand Ghana wildlife resource base.

The funding for the sub-programme is from Central Government transfers and Internally Generated Funds. The sub-programme would be beneficial to the entire residents in the municipality. The main constrain of this sub-programme is the inadequate funds and logistics such as vehicles.Protects, manages and develops forest resources in the national interest and for the benefit of owners;
